REQUESTED REVISION:  
STANDARD: IEEE 802.1AB-2009  
CLAUSE NUMBER: E.1  
CLAUSE TITLE: Requirements of the IEEE 802.1 Organizationally Specific TLV set

RATIONALE FOR REVISION:

Clause E.1 incorrectly refers to clause 9.1 as the source of the LLDPDU bit and octet ordering conventions. The correct clause number is 8.1.

(Clause 9.1 was the correct location in IEEE 802.1AB-2005.)

PROPOSED REVISION TEXT:

Replace "9.1" with "8.1".

Alternatively, since the material in clause E is now part of P802.1Q-REV, maybe clause E should be removed when Q-REV is standardized.

IMPACT ON EXISTING NETWORKS:

None.
