

# Closing Plenary July 2020

Glenn Parsons – IEEE 802.1 WG Chair

[glenn.parsons@ericsson.com](mailto:glenn.parsons@ericsson.com)

# 802.1 WG plenary agenda

## **Monday, July 13<sup>th</sup> opening**

- [Copyright Policy](#)
- [Call for Patents](#)
- [Participant behavior](#)
- Administrative
- Membership status
- Future Meetings
- 802 EC report
- Elections process
- Sanity check – current projects
- TG agendas

## **Monday, July 20<sup>th</sup> closing**

- [Copyright Policy](#)
- [Call for Patents](#)
- [Participant behavior](#)
- Membership status
- WG Election
- Future Meetings
- Sanity check – current projects
- TG reports
- Outgoing Liaisons
- Review of Motions for EC
- Review of Motions for 802.1
- Motions (if any)

# 802.1 plenary session

## electronic meeting schedule

EDT Start	EDT End	Monday July 13		Tuesday July 14		Wednesday July 15		Thursday July 16		Friday July 17	PDT start	CEST start	JST start	Monday July 20	
9:00	9:30	Opening plenary		TSN P802.1DG		TSN 60802		TSN 60802	Nendica	TSN 60802	6:00	15:00	22:00	Closing plenary meeting

15:00	15:30										12:00	21:00	4:00		
15:30	16:00									12:30	21:30	4:30			

# INSTRUCTIONS FOR CHAIRS OF STANDARDS DEVELOPMENT ACTIVITIES

**At the beginning of each standards development meeting the chair or a designee is to:**

- Show the following slides (or provide them beforehand)
- Advise the standards development group participants that:
- IEEE SA's copyright policy is described in Clause 7 of the IEEE SA Standards Board Bylaws and Clause 6.1 of the IEEE SA Standards Board Operations Manual;
- Any material submitted during standards development, whether verbal, recorded, or in written form, is a Contribution and shall comply with the IEEE SA Copyright Policy;
- Instruct the Secretary to record in the minutes of the relevant meeting:
- That the foregoing information was provided and that the copyright slides were shown (or provided beforehand).
- Ask participants to register attendance in IMAT: <https://imat.ieee.org>

# IEEE SA COPYRIGHT POLICY

**By participating in this activity, you agree to comply with the IEEE Code of Ethics, all applicable laws, and all IEEE policies and procedures including, but not limited to, the IEEE SA Copyright Policy.**

- Previously Published material (copyright assertion indicated) shall not be presented/submitted to the Working Group nor incorporated into a Working Group draft unless permission is granted.
- Prior to presentation or submission, you shall notify the Working Group Chair of previously Published material and should assist the Chair in obtaining copyright permission acceptable to IEEE SA.
- For material that is not previously Published, IEEE is automatically granted a license to use any material that is presented or submitted.

# IEEE SA COPYRIGHT POLICY

- The IEEE SA Copyright Policy is described in the IEEE SA Standards Board Bylaws and IEEE SA Standards Board Operations Manual
  - IEEE SA Copyright Policy, see  
Clause 7 of the IEEE SA Standards Board Bylaws  
<https://standards.ieee.org/about/policies/bylaws/sect6-7.html#7>  
Clause 6.1 of the IEEE SA Standards Board Operations Manual  
<https://standards.ieee.org/about/policies/opman/sect6.html>
- IEEE SA Copyright Permission
  - <https://standards.ieee.org/content/dam/ieee-standards/standards/web/documents/other/permissionltrs.zip>
- IEEE SA Copyright FAQs
  - <http://standards.ieee.org/faqs/copyrights.html/>
- IEEE SA Best Practices for IEEE Standards Development
  - [http://standards.ieee.org/develop/policies/best\\_practices\\_for\\_ieee\\_standards\\_development\\_051215.pdf](http://standards.ieee.org/develop/policies/best_practices_for_ieee_standards_development_051215.pdf)
- Distribution of Draft Standards (see 6.1.3 of the SASB Operations Manual)
  - <https://standards.ieee.org/about/policies/opman/sect6.html>

# Instructions for the WG Chair

The IEEE-SA strongly recommends that at each WG meeting the chair or a designee:

- **Show slides #1 through #4 of this presentation**
- **Advise the WG attendees that:**
  - IEEE's patent policy is described in Clause 6 of the *IEEE-SA Standards Board Bylaws*;
  - Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;
  - There may be Essential Patent Claims of which IEEE is not aware. Additionally, neither IEEE, the WG, nor the WG Chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.
- **Instruct the WG Secretary to record in the minutes of the relevant WG meeting:**
  - That the foregoing information was provided and that slides 1 through 4 (and this slide 0, if applicable) were shown;
  - That the chair or designee provided an opportunity for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim(s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard
  - Any responses that were given, specifically the patent claim(s)/patent application claim(s) and/or the holder of the patent claim(s)/patent application claim(s) that were identified (if any) and by whom.
- The WG Chair shall ensure that a request is made to any identified holders of potential essential patent claim(s) to complete and submit a Letter of Assurance.
- It is recommended that the WG Chair review the guidance in *IEEE-SA Standards Board Operations Manual* 6.3.5 and in FAQs 14 and 15 on inclusion of potential Essential Patent Claims by incorporation or by reference.

Note: **WG** includes Working Groups, Task Groups, and other standards-developing committees with a PAR approved by the IEEE-SA Standards Board.

# **Participants have a duty to inform the IEEE**

- Participants **shall** inform the IEEE (or cause the IEEE to be informed) of the identity of each holder of any potential Essential Patent Claims of which they are personally aware if the claims are owned or controlled by the participant or the entity the participant is from, employed by, or otherwise represents
- Participants **should** inform the IEEE (or cause the IEEE to be informed) of the identity of any other holders of potential Essential Patent Claims

**Early identification of holders of potential  
Essential Patent Claims is encouraged**

# Ways to inform IEEE

- Cause an LOA to be submitted to the IEEE-SA (patcom@ieee.org); or
- Provide the chair of this group with the identity of the holder(s) of any and all such claims as soon as possible; or
- **Speak up now and respond to this Call for Potentially Essential Patents**

If anyone in this meeting is personally aware of the holder of any patent claims that are potentially essential to implementation of the proposed standard(s) under consideration by this group and that are not already the subject of an Accepted Letter of Assurance, please respond at this time by providing relevant information to the WG Chair

# Other guidelines for IEEE WG meetings

- All IEEE-SA standards meetings shall be conducted in compliance with all applicable laws, including antitrust and competition laws.
  - Don't discuss the interpretation, validity, or essentiality of patents/patent claims.
  - Don't discuss specific license rates, terms, or conditions.
    - Relative costs of different technical approaches that include relative costs of patent licensing terms may be discussed in standards development meetings.
    - Technical considerations remain the primary focus
  - Don't discuss or engage in the fixing of product prices, allocation of customers, or division of sales markets.
  - Don't discuss the status or substance of ongoing or threatened litigation.
  - Don't be silent if inappropriate topics are discussed ... do formally object.

-----  
For more details, see *IEEE-SA Standards Board Operations Manual*, clause 5.3.10 and  
*Antitrust and Competition Policy: What You Need to Know* at  
<http://standards.ieee.org/develop/policies/antitrust.pdf>

# Patent-related information

The patent policy and the procedures used to execute that policy are documented in the:

- ***IEEE-SA Standards Board Bylaws***  
(<http://standards.ieee.org/develop/policies/bylaws/sect6-7.html#6>)
- ***IEEE-SA Standards Board Operations Manual***  
(<http://standards.ieee.org/develop/policies/opman/sect6.html#6.3>)

Material about the patent policy is available at  
<http://standards.ieee.org/about/sasb/patcom/materials.html>

**If you have questions, contact the IEEE-SA  
Standards Board Patent Committee  
Administrator at [patcom@ieee.org](mailto:patcom@ieee.org)**

---

# Participant behavior in IEEE-SA activities is guided by the IEEE Codes of Ethics & Conduct

- All participants in IEEE-SA activities are expected to adhere to the core principles underlying the:
  - [IEEE Code of Ethics](#)
  - [IEEE Code of Conduct](#)
- The core principles of the IEEE Codes of Ethics & Conduct are to:
  - *Uphold the highest standards of integrity, responsible behavior, and ethical and professional conduct*
  - *Treat people fairly and with respect, to not engage in harassment, discrimination, or retaliation, and to protect people's privacy.*
  - *Avoid injuring others, their property, reputation, or employment by false or malicious action*
- The most recent versions of these Codes are available at <http://www.ieee.org/about/corporate/governance>

---

## Participants in the IEEE-SA “*individual process*” shall act independently of others, including employers

- The [IEEE-SA Standards Board Bylaws](#) require that “*participants in the IEEE standards development individual process shall act based on their qualifications and experience*”
- This means participants:
  - **Shall act & vote** based on their personal & independent opinions derived from their expertise, knowledge, and qualifications
  - **Shall not act or vote** based on any obligation to or any direction from any other person or organization, including an employer or client, regardless of any external commitments, agreements, contracts, or orders
  - **Shall not direct** the actions or votes of other participants or retaliate against other participants for fulfilling their responsibility to act & vote based on their personal & independently developed opinions
- By participating in standards activities using the “*individual process*”, you are deemed to accept these requirements; if you are unable to satisfy these requirements then you shall immediately cease any participation

---

## IEEE-SA standards activities shall allow the fair & equitable consideration of all viewpoints

- The [IEEE-SA Standards Board Bylaws](#) (clause 5.2.1.3) specifies that *“the standards development process shall not be dominated by any single interest category, individual, or organization”*
  - This means no participant may exercise *“authority, leadership, or influence by reason of superior leverage, strength, or representation to the exclusion of fair and equitable consideration of other viewpoints”* or *“to hinder the progress of the standards development activity”*
- This rule applies equally to those participating in a standards development project and to that project’s leadership group
- Any person who reasonably suspects that dominance is occurring in a standards development project is encouraged to bring the issue to the attention of the Standards Committee or the project’s IEEE-SA Program Manager

# DECORUM

- **Press (i.e., anyone reporting publicly on this meeting) are to announce their presence (*SASB Ops Manual 5.3.3.3*)**
- **Video/Audio recording by participants is prohibited (*SASB Ops Manual 5.3.3.2*)**
- **Photography by permission only (*SASB Ops Manual 5.3.3.2*)**
- **Cell phone ringers off please**

# REGISTER ATTENDANCE FOR MINUTES

Please **register** your attendance at IMAT: <https://imat.ieee.org>

- This requires a free IEEE Account.
- Please sign up if you do not yet have an IEEE Account.

Schedule		7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	18:00	19:00	20:00	21:00	22:00	23:00
TSN	TG																	

Please record your attendance for an active meeting (denoted by a yellow bar) by clicking on the yellow bar. Once your attendance has been recorded, the yellow bar changes to a green bar.

The data from IMAT is used as the meeting participant list.

# ELECTRONIC MEETING GUIDELINES

Please **mute** yourself when you are not speaking

Please put yourself into the queue “at the mic” via the Chat, e.g.,: “+q” / “-q”

Please provide your information

- Full name
- Affiliation, as part of your name, e.g., in brackets
- (may provide them in the chat window)

## Changing your data in Webex

### Step 1

- Go to the "Display hidden icons" arrow in the Windows task bar

- Right-click on the Webex icon and select "Open Cisco Webex Meetings"

### Step 2

- In the Webex Windows that opens, Click on the pencil icon\* next to your display information

(\*) May need to Exit Webex via the cog wheel and restart the desktop Webex app to see the pencil icon.

# General Information

- Meeting contributions
  - <http://ieee802.org/1/filenaming.html>
  - Please upload BEFORE presentation
- Minutes
  - <https://1.ieee802.org/category/wg-minutes/>
- Schedule for all WGs
  - [http://www.ieee802.org/802tele\\_calendar.html](http://www.ieee802.org/802tele_calendar.html)
- Website
  - <http://www.ieee802.org/1/>

# Officers and Leadership

- Chair: Glenn Parsons
- Vice Chair : John Messenger
- Recording Secretary: Jessy Rouyer
- Executive Secretary: Stephan Kehrer
- Liaison Secretary: Karen Randall
- Maintenance TG Chair: Paul Congdon
- Security TG Chair: Mick Seaman
  - Security TG Vice-Chair: Karen Randall
- TSN TG Chair: János Farkas
  - TSN TG Vice-Chair: Craig Gunther
  - TSN TG Secretary: Marina Gutiérrez
  - IEC/IEEE 60802 Joint Project chair: Ludwig Winkel
  - IEC/IEEE 60802 Joint Project secretary: Josef Dorr
- NENDICA Chair: Roger Marks
- YANGsters Chair: Scott Mansfield
  - YANGsters Vice-Chair and Secretary: Stephan Kehrer
- Maintenance of Email exploder: Hal Keen and Mark Hantel
- Maintenance of website: Paul Unbehagen

# Affiliation

- You must declare your affiliation(s) which includes employer(s)
  - Per [SASB Bylaws](#) 5.2.1.5 & [SASB OpsMan](#) 5.1.2.3
  - In meetings
    - F2F meeting registration system (not used this time)
    - myProject system for IMAT attendance, ePoll & myBallot
    - Electronic meeting participant list
    - First time you speak in a session
  - When balloting
    - 802.1 ballot email responses for TG & WG ballots
    - myProject system for SA ballot
- Please keep your affiliation\* and employer\*\* information up-to-date

(\*) After signing in in [myProject](#) > Manage Profile & Interests > Personal & Professional Info > Employer field

(\*\*) After signing in at <https://ieee.org> > Your Name > Professional and Education Information > “Your employment information” Edit > Employer

# Voting Membership

- Voting membership in 802.1 is a privilege that holds a responsibility to review drafts and vote on WG ballots (including ePolls)
- You must actively request to become a member and take on this responsibility
  - Email WG Chair and WG Secretary
- Ongoing retention of 802.1 voting rights is predicated on active participation
  - Attendance and Working Group ballots (including ePolls)

# Responding to WG ballots

- To retain your voting membership, you must return 2 out of the last 3 WG ballots (including ePolls).
- When you return your vote on a TG/WG ballot, you must use the correct mailing list and subject line, as specified in the email instructions (distributed on the [Main 802.1 mailing list](#)).
  - If you do not, the automatic tools will not count your vote.
  - DO NOT “Reply” to the vote announcement.
- When you lose your vote this way, you lose all your qualifying attendance credit.
  - If you want to become a voter again, you have to notify the WG Chair and WG Secretary that you wish to become a voter again.

# The following are 802.1 voters (71):

Ademaj, Astrit  
Assmann, Ralf  
Boiger, Christian  
Bottorff, Paul  
Canchi, Radhakrishna  
Chen, Feng  
Cheng, Weiying  
Congdon, Paul  
Cummings, Rodney  
Dorr, Josef  
Elbakoury, Hesham  
Enzinger, Thomas  
Farkas, Janos  
Fedyk, Donald  
Finn, Norman  
Garner, Geoffrey  
Gunther, Craig  
Gutierrez, Marina  
Haddock, Stephen  
Hantel, Mark  
Henry, Jerome  
Holness, Marc  
Itaya, Satoko  
Ito, Yoshihiro

Karl, Michael  
Kehrer, Stephan  
Kelsey, Randy  
Koto, Hajime  
Lawlis, James  
Mangin, Christophe  
Mansfield, Scott  
Maruhashi, Kenichi  
McCall, David  
McMillan, Larry  
Messenger, John  
Mustala, Tero  
Myers, Roy  
Nakano, Hiroki  
Noseworthy, Bob  
Ohsawa, Tomoki  
Ohue, Hiroshi  
Pannell, Donald R  
Parsons, Glenn  
Potts, Michael  
Proell, Dieter  
Qiu, Wei  
Randall, Karen  
Riegel, Maximilian

Rouyer, Jessy V  
Sato, Atsushi  
Schewe, Frank  
Seaman, Michael  
Seewald, Maik  
Sivakolundu, Ramesh  
Specht, Johannes  
Stanica, Marius  
Steindl, Guenter  
Traore, Karim  
Varga, Balazs  
Wang, Xinyuan  
Wang, Tongtong  
Wang, Hao  
Weber, Karl  
Weis, Brian  
Winkel, Ludwig  
Woods, Jordon  
Yamaura, Takahiro  
Yu, Xiang  
Zein, Nader  
Zhao, William  
Zinner, Helge

The following became voting  
members this week:

Henry, Jerome

Sivakolundu, Ramesh

Varga, Balazs

Yu, Xiang

The following relinquished their  
voting membership this week:

Bierschenk, Jens

Zweck, Harald

The following could become voting members if they email me indicating their intention to do so and if they attend this week:

Anderson, Ben	Katsalis, Kostas	Zhu, Chunhui
Chen, David	Kondo, Kenji	
Fincher, Scott	Osagawa, Daisuke	
Gravel, Mark	Petre, Razvan	
Han, Ruibo	Soeda, Tatsuo	
Hasegawa, Akio	Tarui, Isao	
Hemmer, David	Wamsser, Reiner	
Hotta, Yoshifumi	Yu, Yi	

The following will lose voting member status for lack of qualifying attendance, unless they attend this week:

Elbakoury, Hesham

Schewe, Frank

Weis, Brian

The following will lose their voting membership at the end of the plenary through lack of qualifying WG letter ballot voting :

Mustala, Tero

Myers, Roy

Wang, Xinyuan

Weis, Brian

# 802.11 Reciprocal credit

- 802.1 voters may get credit for attending any 802.11
- 802.1 voting members who are also 802.11 voting members may get a popup in IMAT each time they register attendance to ask which group they are accumulating credit for this plenary.
- 802.1 attendance credit will not be granted for a voter who attended only 802.11 meetings.

# LMSC elections

- First plenary session of 2020 (i.e., July)
  - All 802 leadership positions open
- 802.1 process for chair and vice-chair
  - Nominations are open until the start of the closing 802.1 plenary meeting on July 20<sup>th</sup>. The election will be during the July 20<sup>th</sup> closing plenary meeting.
  - If there are multiple nominees for a post, then a secret ballot election will take place in which only 802.1 voters participate and in which each voter casts a single vote for their preferred candidate. To win the election, a majority of voters present is required. If a majority is not achieved, then the candidate with the least number of votes is eliminated and the vote re-taken.
  - A motion to approve the winning candidate (in the case of an election) or the single nominee (in the event that there is only one candidate for the post) will then be made and voted upon by 802.1 voting members.

# LMSC election candidates

- 802 Chair
  - [Paul Nikolich](#)
    - Vice Chair - James Gilb
    - 2<sup>nd</sup> Vice-Chair – Roger Marks
    - Recording Secretary – John D'Ambrosia
    - Executive Secretary – Jon Rosdahl
    - Treasurer – George Zimmerman
- 802.1 Chair
  - Glenn Parsons
- 802.1 Vice-Chair
  - Paul Congdon
  - Jessy Rouyer
  - Secret ballot election
    - Paul Congdon - 22
    - Jessy Rouyer - 34

# Live Voting

- Access the web-based voting tool via the “[Voting Member – Cast your vote](#)” link (also found on the 802.1 [July 2020 plenary session](#) page)
- When asked to sign in, use your IEEE Account user name and password
- Click the “Enter Meeting” button for Elections 
- In the voting tool click on the “Vote” button  for motions currently requiring your vote
- Make your vote selection and click the “Submit” button  to record your vote
- Keep the voting tool “*DirectVoteLive*” browser tab or window open during the meeting

# Election – chair confirmation

- 802.1 approves Glenn Parsons as the chair of the 802.1 working group
- Proposed: John Messenger
- Seconded: Stephan Kehrer
- Y: 56 N: 0 A: 0

# Election – vice-chair confirmation

- 802.1 approves Jessy Rouyer as the vice-chair of the 802.1 working group
- Proposed: Stephan Kehrer
- Seconded: Ludwig Winkel
- Y: 53 N: 0 A: 2

# Interim sessions

- Jan 20-24, 2020 (workshop Jan 25)
  - Geneva, CH, hosted by 802.3/ITU-T/Nokia
- May 18-22, 2020
  - Pasadena, CA, USA hosted by Ethernet Alliance
- September 21-25, 2020
  - Stuttgart hosted by Hirschmann
- January 18-21, 2021
- May 3-7, 2021
  - Santa Fe hosted by [Analog Devices](#)
- September 20-24, 2021
  - Stuttgart [proposal](#)

**Changed to electronic  
due to COVID-19**

**2022 proposals welcome**

# Future plenary sessions

- March 15-20, 2020 – Atlanta, GA, USA
  - Hilton Atlanta
- July 12-17, 2020 – Montreal, QC, Canada
  - Sheraton Montreal
- November 8-13, 2020 – Bangkok, Thailand
  - Bangkok Marriott Marquis Queen's Park
- March 14-19, 2021 – Denver, CO, USA
  - Hyatt Regency Denver
- July 11-16, 2021 – Madrid, Spain (to be confirmed)
- November 14-19, 2021 – Vancouver, Canada
  - Hyatt Regency Vancouver only
- March 13-18, 2022 – Orlando, FL, USA
  - Hyatt Regency Denver
- July 10-15, 2022 – Montreal, QC, Canada
  - Sheraton Montreal
- November 13-18, 2022 – Bangkok, Thailand (to be confirmed)
  - Bangkok Marriott Marquis Queen's Park

**Cancelled or  
changed to electronic  
due to COVID-19**

# Live Voting

- Access the web-based voting tool via the “[Voting Member – Cast your vote](#)” link (also found on the 802.1 [July 2020 plenary session](#) page)
- When asked to sign in, use your IEEE Account user name and password
- Click the “Enter Meeting” button for Motions 
- In the voting tool click on the “Vote” button  for motions currently requiring your vote
- Make your vote selection and click the “Submit” button  to record your vote
- Keep the voting tool “*DirectVoteLive*” browser tab or window open during the meeting

# Meeting planning - straw poll 1

- Given that IEEE 802 incurs significant expenses cancelling (plenary) face-to-face meetings, it has been suggested that a meeting fee be charged for attendance at electronic meetings substituting for those face-to-face plenaries. What would you consider the highest reasonable and fair registration fee range to be: (select one)

	WG members	All participants
– \$800-\$500	0	1
– \$500-\$300	5	6
– \$150-\$300	31	26
– Less than \$150	-	17
– My employer/sponsor is unwilling to pay meeting fees for electronic meetings	13	9
– Abstain	-	6

# Meeting planning - straw poll 2

- IEEE 802 typically holds 6 in-person sessions per year. Once government and company restrictions have been lifted, what do you perceive as the reasonable number of face to face meetings (plenaries and interims) per year? (the division between plenaries and interims is TBD)

	WG members	All participants
– 6	21	29
– 5	1	1
– 4	14	23
– 3	7	9
– 2	4	5
– 1	0	0
– 0	0	0
– Abstain	2	2

# Meeting planning - straw poll 3

- At in-person plenary sessions, typically over 90% of voting members attend. In the straw poll for November 2020, only 30% indicated they could attend. What should be the target threshold for an effective in-person session?

	WG members	All participants
– 30%	1	1
– 40%	0	0
– 50%	5	7
– 60%	6	10
– 70%	26	27
– 80%	9	12
– 90%	3	6
– Abstain	1	2

## IEEE P802.1Qcr-D2.2 Asynchronous Traffic Shaping 2nd Sponsor recirculation ballot comments

Cl 8 SC 8.6.8.4 P29 L47 # R2-1  
Cummings, Rodney National Instruments C

Comment Type TR Comment Status R

The previous recirculation removed the helpful NOTE on cut-through. That NOTE was intentionally created by the working group during development of IEEE Std 802.1Qbv-2015, not the P802.1Qcr project.

We all know that it is possible for a standard to mandate something that is not practical... something that doesn't make sense in the context of product implementation. There is nothing surprising about that. Murphy's Law applies to standard development, so mistakes are inevitable. The question is, what approach is used in order to address impractical mandates? There are two options:

A: Standard forces implementers to follow the impractical mandate.  
B: Implementers explain the impractical mandate to standards group, and the standard is changed to reflect practical realities.

Option A is the wrong approach, but many standard participants still insist on it. First, the approach is wrong because it proposes to oppose practicality, and a standard should always be focused on practical implementation. Second, even when there is a disagreement on practicality, this approach is unrealistic. IEEE provides no mechanism to force conformance. Some people argue that conformance testing entities will force the issue, but those entities typically sell testing as a product to the implementer, and "the customer is always right" rule prevents enforcement of impractical mandates.

Option B is the right approach, and it will always be the right approach. It is unfortunate that some standards participants refuse to accept it, but hopefully that will change over time.

Relative to this comment, it is a well-known fact that many Ethernet switches implement cut-through, and those switches also claim conformance to IEEE Std 802.1Q. Cut-through is a critically important feature for these switches, and the implementers understand the advantages as well as disadvantages. Cut-through is a practical necessity in these switches. Based on the explanations from implementers of cut-through, the 802.1 working group seems to have reached rough consensus that cut-through is a reasonable, practical feature for a bridge (switch).

Nevertheless, 802.1AC imposes an impractical mandate, by prohibiting cut-through using a technicality. Since 802.1AC has the impractical mandate, 802.1Q also carries that impractical mandate. Based on that, some 802.1 members are proposing to remove the helpful text based on an Option A approach to the impractical mandate.

It is a fact that 802.1Q switches exist with cut-through. Based on that fact, the original NOTE included text to assist those implementers. The text of the NOTE is just as applicable now as it was then, so there is no justification to remove it.

Now and in the future, I will vote Disapprove on any IEEE SA project that takes the Option A approach to an impractical mandate. The Option B approach is the only approach that aligns with IEEE SA's goals and charter.

### Suggested Remedy

Restore the deleted text of the NOTE to the original (prior to P802.1Qcr edits).

### Response

Response Status U

REJECT.

IEEE 802.1Q requires conformance to IEEE Std 802.1AC for implementation of the ISS. IEEE Std 802.1AC clearly states that receipt of an error free frame is required for an M\_UNITDATA.indication indicating receipt of a frame, and the received FCS is part of that indication if there is any doubt as to the necessity of receiving it before the indication occurs.

A NOTE cannot contain or change the mandatory requirements of the standard in which it occurs and similarly cannot change the mandatory requirements of another standard.

The comment has pointed out that there have been incorrect claims of conformance to IEEE Std 802.1Q. The PICS already provides a way of noting exception items and should be properly completed for any claim of conformance.

The comment claims that the 802.1 working group "seems to have reached rough consensus" on the use of 802.1Q with cut-through. This is not the case. Moreover:

a) The issue of cut-through in conjunction with IEEE Std 802.1AC and IEEE Std 802.3 is also an issue for the 802.3 working group.

b) 'Rough consensus' within a working group responsible for developing a standard does not supersede the provision of a standard that has been approved by the IEEE-SA standards development process, including past agreement through the SA ballot process.

Cl 8 SC 8.6.8.4 P29 L50 # R2-5  
Christian Boiger b-plus GmbH

Comment Type T Comment Status A

Rogue comment from Christian Boiger.

A prior comment from D2.1 was not implemented properly. The last sentence of the note 2 in D2.2 has been struck out in D2.2, but this sentence shouldn't have been removed. This sentence is as follows: "It is desirable that the schedule for such traffic is designed to accommodate the intended pattern of transmission without overrunning the next gate-close event for the traffic classes concerned."

### Suggested Remedy

Bring back the last sentence at the end of Note 2 in D2.2.

## P802E D1.6 Recom. Practice for Privacy Consi. for IEEE 802 Initial Sponsor ballot comments

Cl 1	SC 1	P 1	L 1	#
Byrd, William		PRIVACOM VENTUR		i-12

Comment Type	GR	Comment Status	R	MBS

This does not appear to be a standard to me. It just looks like a Lawyer wrote a lot "don't sue me," junk. It just states the obvious and does nothing to explain how to implement anything.

It's just a complete waste of IEEE time, with zero value

### SuggestedRemedy

Drop the entire standard.  
Or, show specifically how and where privacy can be obtained on 802 networks. Not just "don't sue me, or blame me," nonsense

Response	Response Status	C

REJECT.  
The proposed change in the comment does not contain sufficient detail for the Comment Resolution Group (CRG) to determine specific changes that would satisfy the comment. This Recommended Practice aims to help IEEE 802 protocol developers mitigate privacy threats. Discussion during its development revealed that the extent of the threat posed by information correlation and fingerprinting techniques was not generally understood (not obvious). The Recommended Practice helps inform developers and users on privacy requirements. Just as for security in general, there can be no expectation of absolute privacy (in the absence of a decision not to communicate at all) but merely a question of raising the effort expended by an adversary to the extent that violating privacy becomes an unprofitable/unattractive option.

Cl 1	SC 1.3	P 21	L 13	#
Rannow, R K		IEEE/SELF		i-13

Comment Type	GR	Comment Status	R	MBS

Uncomfortable with the introduction as, "a threat model" is not all encompassing.

One must use various models (HW, SW, architecture, etc.). Furthermore, there are vulnerabilities that might be considered, and this may require various considerations.

### SuggestedRemedy

Recommend we also include TVA (threat and vulnerability analysis):

Threat and vulnerability models facilitate the framework and methodical identification of threats, risks or vulnerabilities associated with the identified threats, and possible mitigation or counter-measure solutions.

There are

Response	Response Status	C

REJECT.  
The proposed change in the comment does not contain sufficient detail for the Comment Resolution Group (CRG) to determine specific changes that would satisfy the comment.

Cl 1	SC 1.4	P 22	L 7	#
Rannow, R K		IEEE/SELF		i-17

Comment Type	GR	Comment Status	R	MBS

Perhaps a missed opportunity, no meaningful boundaries described (where might privacy ownership lie) and developing a comprehensive model as part of a product spec.

### SuggestedRemedy

Working on a more comprehensive proposal.

Response	Response Status	C

REJECT.  
The proposed change in the comment does not contain sufficient detail for the Comment Resolution Group (CRG) to determine specific changes that would satisfy the comment.

The group did discuss this topic extensively in prior versions of the draft and concluded that the purpose of the recommended practice could not be to define privacy boundaries (as 1.5 makes clear), because such boundary definition could be argued against ad infinitum, and would vary as new standards are developed.

# Supporting information P802E

## P802E D1.6 Recom. Practice for Privacy Consi. for IEEE 802 Initial Sponsor ballot comments

Cl 1 SC 1.4 P 22 L 15 # i-14  
Rannow, R K IEEE/SELF

Comment Type GR Comment Status R MBS

Replace:

Helping to protect personal information against such less powerful adversaries remains an important goal.

*SuggestedRemedy*

With:

Helping to protect personal information against unauthorized access and less powerful adversaries remains an important goal.

Response Response Status C

REJECT.

The paragraph aims at specifying that this recommended practice aims at providing a framework to protect against adversaries that can use IEEE 802 technologies to perform fingerprinting and obtain PII, directly or indirectly. Unauthorized access seems to be break the balance of the sentence without adding more clarity to the meaning as unauthorized access would be what these adversaries perform.

Cl 1 SC 1.5 P 22 L 25 # i-18  
Zalewski, Janusz Florida Gulf Coast Uni

Comment Type GR Comment Status R MBS

I cannot imagine how a guideline on "privacy" does not have it defined.

*SuggestedRemedy*

Any definition would be better than none.

Response Response Status C

REJECT.

The proposed change in the comment does not contain sufficient detail for the Comment Resolution Group (CRG) to determine specific changes that would satisfy the comment.

The existing text of clause 1.5 already discusses the various shades of meanings of privacy, and the IEEE Standards Dictionary Online (referenced by clause 3. Definitions for the definition of terms not defined in that clause) also provides a definition: "The ability of an individual or group to seclude themselves or information about themselves and thereby reveal themselves selectively."

The recommendations in this Recommended Practice do not depend on the selection of a particular definition of privacy, and would not be enhanced by introducing an additional definition.

Cl 1 SC 1.5 P 22 L 27 # i-15  
Rannow, R K IEEE/SELF

Comment Type GR Comment Status R MBS

Not sure how privacy in "social anthropology" or the study of people conveys helpful insight on a definition.

*SuggestedRemedy*

Change, "social anthropology" to "societal norms" to perhaps align with IEEE EAD endeavors.

Response Response Status C

REJECT.

The meaning of this text is that the term privacy can have different definitions depending on the domain, regulatory is given as an example, social anthropology is given as another example of a domain where specific definitions can be found. The text refers here to a definition of a term in a field, not to the general notion that 'privacy' may have different definition depending on groups of people (which is what social anthropology would study, along with the associated definition of terms).

Cl 3 SC 3 P 23 L 20 # i-16  
Rannow, R K IEEE/SELF

Comment Type GR Comment Status R MBS

vulnerability definition

*SuggestedRemedy*

Vulnerability:

The characteristics and circumstances of a community, system, device or asset that makes it susceptible to compromise or damaging effects of the vulnerability.

There are many aspects of vulnerability, and may include social, personal, physical, economic, and environmental.

Response Response Status C

REJECT.

The term vulnerability is not used in the Recommended Practice.

# Supporting information P802E

## P802E D1.6 Recom. Practice for Privacy Consi. for IEEE 802 Initial Sponsor ballot comments

CI 3	SC 3	P 24	L 1	# i-19
Zalewski, Janusz		Florida Gulf Coast Uni		
Comment Type	GR	Comment Status	R	MBS

I cannot imagine how a guideline on "privacy" does not have it defined.

### *SuggestedRemedy*

Any definition would be better than none.

Response	Response Status	C
----------	-----------------	---

REJECT.

The proposed change in the comment does not contain sufficient detail for the Comment Resolution Group (CRG) to determine specific changes that would satisfy the comment.

The recommendations in this Recommended Practice do not depend on the selection of a particular definition of privacy (see clause 1.5 in the draft). The IEEE Standards Dictionary Online (referenced by clause 3. Definitions for the definition of terms not defined in that clause) provides this definition: "The ability of an individual or group to seclude themselves or information about themselves and thereby reveal themselves selectively."

CI 8	SC 8.1	P 34	L 13	# i-28
Riegel, Maximilian		Nokia		
Comment Type	TR	Comment Status	R	MBS

In terms of PII exposure, short-lived services are not less vulnerable than longer lasting services. Once an identifier is visible, it's known. You may had in mind, that more frequent services like network probes have higher likelihood of observation when moving around.

### *SuggestedRemedy*

Change sentence to 'Temporary identifiers should not be used or at least permitted whenever possible'.

Response	Response Status	C
----------	-----------------	---

REJECT.

The proposed remedy implies that permanent identifiers are preferred. The meaning of the recommendation is that temporary services may be better served if temporary identifiers are used, so as to avoid permanent association with a device.

Riegel, Maximilian		Nokia		
Comment Type	TR	Comment Status	D	MBS
Header changed to 'MAC and Physical Layer Operations', however this change misses that IEEE 802 protocols also comprise functions above the MAC layer. As IEEE 802 protocol operations belong to Data Link layer and Physical Layer, it makes no sense to exclude IEEE 802 protocol functions above the MAC layer.				
SuggestedRemedy				
Change header to 'Data Link and Physical Layer Operations' and also change 'MAC' in line 33 to Data Link'				
Proposed Response	Response Status W			
REJECT.				
1. Subclause 7.2 is part of this Recommended Practice, and not a definition of its entire Scope. The title of the subclause reflects its contents. Other aspects of IEEE 802 operation (MAC Addresses, Network Discovery etc. are addressed by other subclauses.				
2. The functions above the MAC Layer use protocol identifiers (EtherTypes, LLC Addresses). Renaming this particular subclause would be to advocate the replacement of these persistent identifiers with ephemeral values, and thus require a completely new approach to protocol identification. No such proposal has been made, and no such proposal is required as data above the MAC (including protocol identifiers) can be (and often is) cryptographically confidentiality protected and thus privacy protected between communicating 802 end stations (see IEEE Std 802.1X and related standards).				

# 802.1 Motions

## 2020-07

---

### Consent Agenda

### Liaisons and external communications (II)

# Motion

---

- Approve  
<http://www.ieee802.org/1/files/public/docs2020/liaison-response-3GPP-SA2-survival-time-0720-v01.pdf> as communication to 3GPP SA WG2, granting the IEEE 802.1 WG chair (or his delegate) editorial license.
- In the WG (y/n/a): 51, 0, 1
  - Proposed: János Farkas,      Second: Jessy Rouyer
- In EC, for information

# Motion

---

- Approve  
<http://www.ieee802.org/1/files/public/docs2020/liaison-802-1CQ-D0-5-0720-v01.pdf> as communication to IEEE 1722, granting the IEEE 802.1 WG chair (or his delegate) editorial license.
- In the WG (y/n/a): 49, 0, 2
  - Proposed: Craig Gunther,    Second: Geoffrey Garner
- In EC, for information

# Motion

---

- Approve sharing the latest revision of the P802.1Qdd draft with LNI4.0
- Proposed: Josef Dorr
- Second: János Farkas
- In the WG (y/n/a): 51, 0, 1
- In EC, for information

### Consent Agenda

Liaisons and external  
communications (ME)

# Motion

---

- Approve the blog post on IEEE Std 802.1AS-2020 in <http://www.ieee802.org/1/files/public/docs2020/as-draft-blog-post-0720-v01.pdf>, to be released with editorial changes as deemed necessary.

- In the WG (y/n/a): 52, 0, 0
  - Proposed: János Farkas,      Second: Norman Finn

In EC, mover: Glenn Parsons,      Second: Roger Marks  
(y/n/a): <y>,<n>,<a>

# Motion

- Approve submission of the following draft(s) to ISO/IEC JTC1/SC6 for information under the PSDO agreement
  - IEEE 802.1X-2020\*
  - P802.1Qcr
  - P802.1CS
  - P802.1Qcz
  - P802.1AE-2018/Cor-1\*
- In the WG, Proposed: Paul Congdon    Second: János Farkas
  - Sending draft (y/n/a): 52, 0, 1
- In EC, mover: Glenn Parsons    Second: Roger Marks
  - (y/n/a): <y>,<n>,<a>

NOTE: \* sending published standard because SA ballot has completed.

# Motion

---

- Approve submission of the following draft(s) to ISO/IEC JTC1/SC6 for adoption under the PSDO agreement, once approved and published.
  - P802.1CMde
  - IEEE 802.1X-2020
  - IEEE 802.1AE-2018/Cor-1\*
- In the WG, Proposed: Paul Congdon    Second: János Farkas
  - Sending draft (y/n/a): 51, 0 ,1
- In EC, mover: Glenn Parsons    Second: Roger Marks
  - (y/n/a): <y>,<n>,<a>

NOTE: \* sending under corrigendum process.

# Motion

---

- Approve liaison of the following comment responses to ISO/IEC JTC1/SC6 under the PSDO agreement:
  - IEEE 802.1AE-2018
    - <http://www.ieee802.org/1/files/public/docs2020/maint-randall-SC6CommentResponse1AERevFDIS-0720-v02.pdf>
  - IEEE 802.1Xck-2018
    - <http://www.ieee802.org/1/files/public/docs2020/maint-randall-SC6CommentResponse1XckFDIS-0720-v01.pdf>
- In the WG, Proposed: Paul Congdon    Second: Mick Seaman
  - Sending draft (y/n/a): 48, 0, 2
- In EC, mover: Glenn Parsons                      Second: Roger Marks
  - (y/n/a): <y>,<n>,<a>

NesCom

# Motion

- Approve forwarding P802.1ASdn PAR documentation in <http://www.ieee802.org/1/files/public/docs2020/dn-PAR-0520-v01.pdf> to NesCom
- Approve CSD documentation in <http://www.ieee802.org/1/files/public/docs2020/dn-CSD-0520-v01.pdf>
- In the WG, Proposed: Rodney Cummings,  
Second: János Farkas
  - PAR (y/n/a): 48, 0, 0
  - CSD (y/n/a): 47, 0, 1
- In EC, mover: Glenn Parsons, Second:
  - (y/n/a): <y>,<n>,<a>

Administrative

# **WG MOTIONS**

# Motion

- 802.1 approves the May 2020 interim session minutes:
  - <http://www.ieee802.org/1/files/public/minutes/2020-05-minutes-v3.pdf>
- Proposed: Jessy Rouyer
- Seconded: János Farkas
- Approved by Acclamation

# Motion

- 802.1 approves to hold an 802.1 electronic interim session January 18-22, 2021
- Proposed: János Farkas
- Seconded: John Messenger
- Approved by Acclamation

# Motion

- 802.1 approves to hold an 802.1 interim session September 20-24, 2021 in Stuttgart, Germany hosted by Hirschmann Automation and Control GmbH
- Proposal in:
  - <http://www.ieee802.org/1/files/public/docs2020/admin-kehrer-sep2021-interim-proposal-0720-v01.pdf>
- Proposed: Stephan Kehrer
- Seconded: János Farkas
- Approved by Acclamation

Maintenance TG

# **WG MOTIONS**

# Motion

- 802.1 authorizes the Maintenance TG to hold electronic meetings to address task group matters and progress resolution of maintenance items documented in the maintenance database (<https://1.ieee802.org/maintenance/database>).
- Dates/times/agenda to be announced subject to notice of at least 10 days to the 802.1 Minutes email list .
- Proposed: Paul Congdon
- Second: Jessy Rouyer
- Approved by Acclamation

# Motion

- 802.1 authorizes John Messenger, the Editor of P802.1Q-Rev - Standard for Local and Metropolitan Area Networks--Bridges and Bridged Networks to prepare drafts for and conduct Working Group balloting.
- Proposed: Paul Congdon
- Second: János Farkas
- In the WG (y/n/a): 48, 0 ,1

Security TG

# **WG MOTIONS**

# MOTION

- Authorize the Security Task Group to hold electronic meetings to progress P802.1AEdk and task group matters arising:
  - Dates/times/agenda to be announced subject to notice of at least 10 days to the [802.1 Minutes email list](#)
- Proposed: Mick Seaman
- Second: Karen Randall
- Approved by Acclamation

TSN TG

# **WG MOTIONS**

# Motion

- 802.1 authorizes the TSN Task Group to hold electronic meetings weekly on Mondays from 11:00 AM (US-Eastern) to 1:00 PM (US-Eastern) starting with July 27, 2020.
- Agenda will be announced on the [802.1 Minutes email list](#) at least 5 calendar days before the electronic meeting.
- Access information is posted on the <http://www.ieee802.org/1/tsn> page and will be updated as necessary.
- Proposed: János Farkas
- Second: Craig Gunther
- Approved by Acclamation

# Motion

- 802.1 authorizes the TSN TG to hold additional electronic meetings as needed to progress the projects of the Task Group.
- Dates, times, and agenda to be announced subject to notice of at least 10 calendar days on the [802.1 Minutes email list](#).
- Access information is posted on the <http://www.ieee802.org/1/tsn> page and will be updated as necessary.
- Proposed: János Farkas
- Second: Craig Gunther
- Approved by Acclamation

# Motion

- 802.1 authorizes the TSN Task Group to hold weekly electronic meetings together with IEC 65C/WG18 to progress the work of the IEC/IEEE 60802 Joint Project on Mondays from 9:00 AM (US-Eastern) to 11:00 AM (US-Eastern) starting July 27, 2020.
- Agenda will be announced on the [802.1 Minutes email list](#) at least 5 calendar days before the electronic meeting.
- Access information is posted on the <http://www.ieee802.org/1/tsn> page and will be updated as necessary.
- Proposed: János Farkas
- Second: Ludwig Winkel
- Approved by Acclamation

# Motion

- 802.1 authorizes the TSN Task Group to hold weekly electronic meetings to progress the P802.1DG project on Tuesdays from 9:00 AM (US-Eastern) to 10:00 AM (US-Eastern) starting July 21, 2020.
- Agenda will be announced on the [802.1 Minutes email list](#) at least 5 calendar days before the electronic meeting.
- Access information is posted on the <http://www.ieee802.org/1/tsn> page and will be updated as necessary.
- Proposed: Craig Gunther
- Second: János Farkas
- Approved by Acclamation

# Motion

- 802.1 authorizes the TSN Task Group to hold ad hoc electronic meetings together with IEC 65C/WG18 to develop a system specification to progress the work of the IEC/IEEE 60802 Joint Project on Wednesdays from 11:00 AM (US-Eastern) to 12:00 PM (US-Eastern) starting July 22, 2020.
- Agenda will be announced on the [802.1 Minutes email reflector](#) at least 5 calendar days before the electronic meeting.
- Access information is posted on the <http://www.ieee802.org/1/tsn> page and will be updated as necessary.
- Proposed: János Farkas
- Second: Ludwig Winkel
- Approved by Acclamation

# Motion

- 802.1 authorizes Marc Holness, the Editor of P802f Overview and Architecture — Amendment: YANG Data Model for EtherTypes to prepare drafts for and conduct Task Group balloting.
- Proposed: János Farkas
- Second: Norm Finn
- In the WG (y/n/a): 44, 1, 2

# Motion

- 802.1 authorizes Stephen Haddock, the Editor of P802.1ABdh Station and Media Access Control Connectivity Discovery — Amendment: Support for Multiframe Protocol Data Units to prepare drafts for and conduct Task Group balloting.
- Proposed: János Farkas
- Second: Norm Finn
- In the WG (y/n/a): 46, 1, 2

# Motion

- 802.1 authorizes Geoffrey Garner, the Editor of P802.1ASdm Standard for Local and Metropolitan Area Networks: Timing and Synchronization for Time-Sensitive Applications — Amendment: Hot Standby to prepare drafts for and conduct Task Group balloting.
- Proposed: János Farkas
- Second: Günter Steindl
- In the WG (y/n/a): 48, 0, 1

# Motion

- 802.1 authorizes Christophe Mangin, the Editor of P802.1CBdb Frame Replication and Elimination for Reliability — Amendment: Extended Stream Identification Functions to prepare drafts for and conduct Working Group balloting.
- Proposed: János Farkas
- Second: Ludwig Winkel
- In the WG (y/n/a): 47, 1, 1

# Motion

- 802.1 authorizes TSN Task Group electronic meetings to generate PAR and CSD for pre-circulation to the EC for a standard to specify a TSN Profile for Aerospace.
- Proposed: János Farkas
- Second: Johannes Specht
- In the WG (y/n/a): 45, 1 , 4

Nendica

# **WG MOTIONS**

# Motion –

- 802.1 authorizes Nendica to hold weekly electronic meetings each Thursday 09:00 AM - 11:00 AM ET.
- Agenda will be announced on the [802.1 Minutes email list](#) at least 5 calendar days before the electronic meeting.
- Access and agenda information are provided on the calendar at <https://1.ieee802.org/802-nendica/>.
- Proposed: Paul Congdon
- Second: Roger Marks
- Approved by Acclamation

YANGsters

# **WG MOTIONS**

# Motion

- 802.1 authorizes weekly electronic meetings for the YANGsters subgroup on Tuesdays from 10:00 AM (US-Eastern) to 11:00 AM (US-Eastern) starting July 28, 2020.
- Agenda will be announced on the [802.1 Minutes email list](#) at least 5 calendar days before the electronic meeting.
- Access information is posted on the <https://1.ieee802.org/yangsters/yangsters-call-information/> page and will be updated as necessary.
- Proposed: Scott Mansfield
- Second: János Farkas
- Approved by Acclamation

# Any other business?

- How was Direct Vote?
  - There was a license issue that prevented us from starting voting for ~60 minutes
  - Easy to use and the system did the count
  - Two meetings (elections & motions) was confusing
  - Motions should be in order
  - ~20% voters logged in but did not vote
- Do you prefer the focused week of meetings in the session?
  - Several indicated support
  - Blocking the week off in one's schedule (especially when it is not your time zone) is preferable
  - Opportunity for better cross-participation
  - Suggestion to schedule hallway discussions, or have "office hours"
