REGISTRATION FEE

Access to this session*
requires a registration fee.

Please check the session
announcement for details
before attending.

* IEEE 802.1 holds 3 plenary sessions and 3 interim sessions a year.
No registration fee is required for IEEE 802.1 electronic meetings held between these sessions.

MIXED MODE GUIDELINES

All meetings are supported by an in-person mixed mode facilitator

- Project in the meeting room
- Appear in WebEx as “Meeting Room”
- Broadcast meeting room audio
- Mute or remove noisy lines
- Monitor the WebEx queue

The chair runs the meeting

- Responsible for recognizing people in two queues
 - In person at the mic
 - On WebEx (assisted by facilitator)
- May not follow the WebEx chat

All presenters **present via WebEx**

If you are in-person, you may join WebEx to

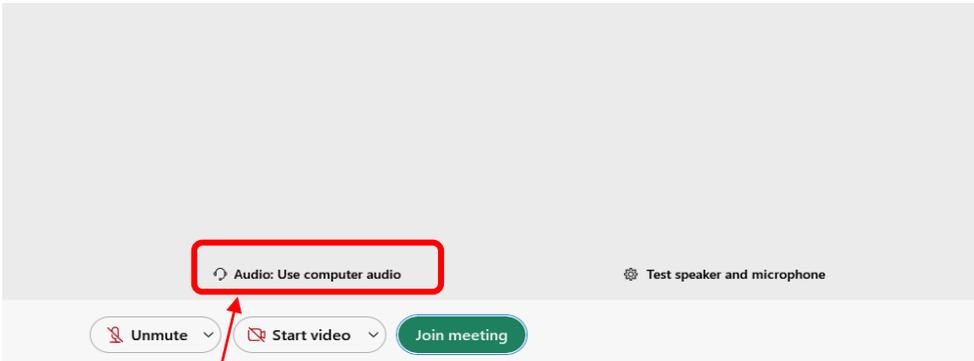

- Present
- See the screen
- Chat (*not part of the meeting*)

If you are in-person and join WebEx

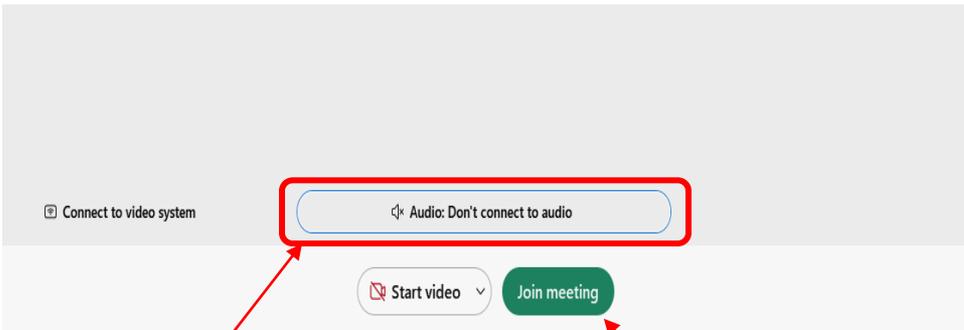

- **DO NOT connect to the audio**
- After you **accept** the IEEE SA terms
- Before you **click join meeting**
- Change your audio:

 Audio: Don't connect to audio

ELECTRONIC MEETING GUIDELINES

Please **mute** yourself when you are not speaking

Please put yourself into the queue “at the mic” via the Chat, e.g.: “+q” / “-q”

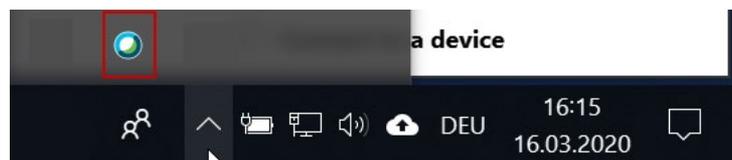

Please provide your information

- First and last names
- Affiliation, after your last name, e.g., in square brackets
- (may provide them in the Chat window)

Changing your data in Webex

Step 1

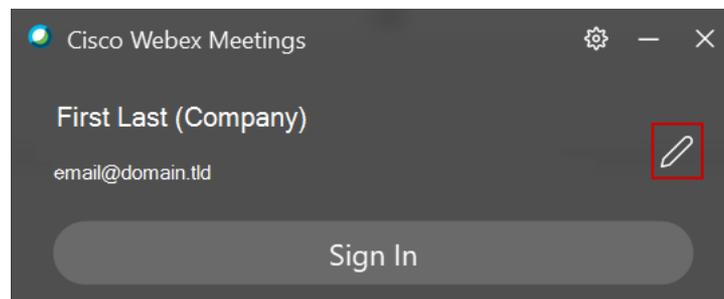

- Go to the "Display hidden icons" arrow in the Windows task bar

- Right-click on the Webex icon and select "Open Cisco Webex Meetings"

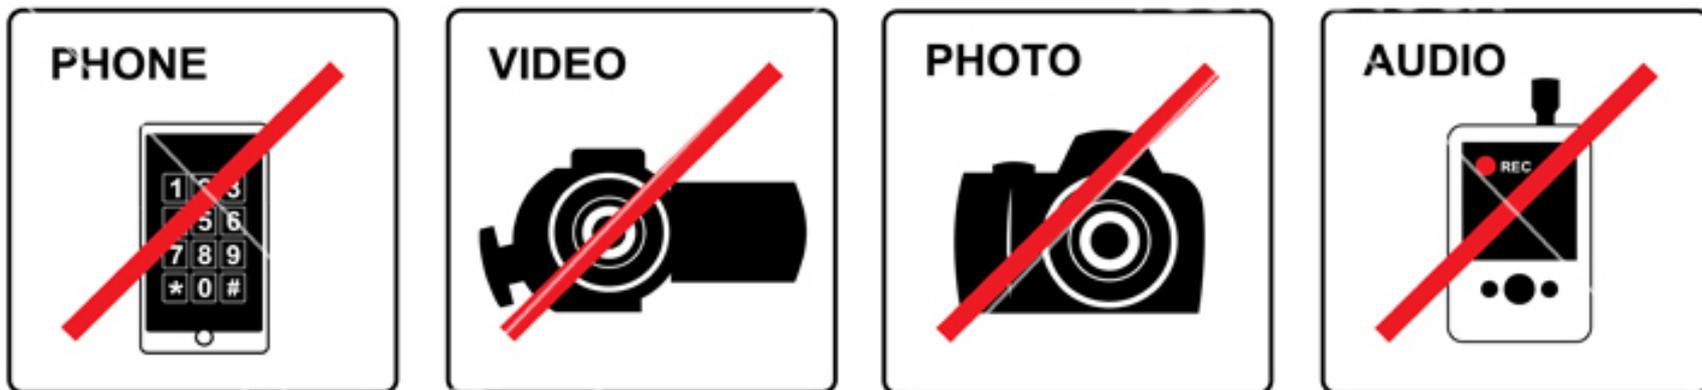

Step 2

- In the Webex Windows that opens, Click on the pencil icon* next to your display information

(*) May need to Exit Webex via the cog wheel and restart the desktop Webex app to see the pencil icon. May also need to log in as guest.

DECORUM

- **Press (i.e., anyone reporting publicly on this meeting) are to announce their presence** (*5.3.3.3 of SASB Operations Manual*)
- **Video/Audio recording by participants is prohibited** (*5.3.3.2 of SASB Operations Manual*)
- **Photography by permission only** (*5.3.3.2 of SASB Ops Manual*)
- **Cell phone ringers off please**

ATTENDANCE

Please **record** your attendance in IMAT at <https://imat.ieee.org>

- This requires a free IEEE Account.
- Please create one **only** if you do not yet have an IEEE Account.

INSTRUCTIONS FOR CHAIRS OF STANDARDS DEVELOPMENT ACTIVITIES

At the beginning of each standards development meeting the chair or a designee is to:

- Show the following slides (or provide them beforehand)
- Advise the standards development group participants that:
- IEEE SA's copyright policy is described in Clause 7 of the IEEE SA Standards Board Bylaws and Clause 6.1 of the IEEE SA Standards Board Operations Manual;
- Any material submitted during standards development, whether verbal, recorded, or in written form, is a Contribution and shall comply with the IEEE SA Copyright Policy;
- Instruct the Secretary to record in the minutes of the relevant meeting:
- That the foregoing information was provided and that the copyright slides were shown (or provided beforehand).
- Ask participants to register attendance in IMAT: <https://imat.ieee.org>

IEEE SA COPYRIGHT POLICY

By participating in this activity, you agree to comply with the IEEE Code of Ethics, all applicable laws, and all IEEE policies and procedures including, but not limited to, the IEEE SA Copyright Policy.

- Previously Published material (copyright assertion indicated) shall not be presented/submitted to the Working Group nor incorporated into a Working Group draft unless permission is granted.
- Prior to presentation or submission, you shall notify the Working Group Chair of previously Published material and should assist the Chair in obtaining copyright permission acceptable to IEEE SA.
- For material that is not previously Published, IEEE is automatically granted a license to use any material that is presented or submitted.

IEEE SA COPYRIGHT POLICY

- The IEEE SA Copyright Policy is described in the IEEE SA Standards Board Bylaws and IEEE SA Standards Board Operations Manual
 - IEEE SA Copyright Policy, see

INSTRUCTIONS FOR THE WG CHAIR

The IEEE SA strongly recommends that at each WG meeting the chair or a designee:

- Show slides 1 through 4 of this presentation
- Advise the WG attendees that:
 - IEEE's patent policy is described in Clause 6 of the *IEEE SA Standards Board Bylaws*;
 - Early identification of patent claims which may be essential for the use of standards under development is strongly encouraged;
 - There may be Essential Patent Claims of which IEEE is not aware. Additionally, neither IEEE, the WG, nor the WG Chair can ensure the accuracy or completeness of any assurance or whether any such assurance is, in fact, of a Patent Claim that is essential for the use of the standard under development.
- Instruct the WG Secretary to record in the minutes of the relevant WG meeting:
 - That the foregoing information was provided and that slides 1 through 4 (and this slide 0, if applicable) were shown;
 - That the chair or designee provided an opportunity for participants to identify patent claim(s)/patent application claim(s) and/or the holder of patent claim(s)/patent application claim(s) of which the participant is personally aware and that may be essential for the use of that standard
 - Any responses that were given, specifically the patent claim(s)/patent application claim(s) and/or the holder of the patent claim(s)/patent application claim(s) that were identified (if any) and by whom.
- The WG Chair shall ensure that a request is made to any identified holders of potential essential patent claim(s) to complete and submit a Letter of Assurance.
- It is recommended that the WG Chair review the guidance in *IEEE SA Standards Board Operations Manual* 6.3.5 and in FAQs 14 and 15 on inclusion of potential Essential Patent Claims by incorporation or by reference.

Note: **WG** includes Working Groups, Task Groups, and other standards-developing committees with a PAR approved by the IEEE SA Standards Board.

PARTICIPANTS HAVE A DUTY TO INFORM THE IEEE

- Participants shall inform the IEEE (or cause the IEEE to be informed) of the identity of each holder of any potential Essential Patent Claims of which they are personally aware if the claims are owned or controlled by the participant or the entity the participant is from, employed by, or otherwise represents
- Participants should inform the IEEE (or cause the IEEE to be informed) of the identity of any other holders of potential Essential Patent Claims

**Early identification of holders of potential
Essential Patent Claims is encouraged**

WAYS TO INFORM IEEE

- **Cause an LOA to be submitted to the IEEE SA (patcom@ieee.org); or**
- **Provide the chair of this group with the identity of the holder(s) of any and all such claims as soon as possible; or**
- **Speak up now and respond to this Call for Potentially Essential Patents**

If anyone in this meeting is personally aware of the holder of any patent claims that are potentially essential to implementation of the proposed standard(s) under consideration by this group and that are not already the subject of an Accepted Letter of Assurance, please respond at this time by providing relevant information to the WG Chair

OTHER GUIDELINES FOR IEEE WORKING GROUP MEETINGS

- All IEEE SA standards meetings shall be conducted in compliance with all applicable laws, including antitrust and competition laws.
 - Don't discuss the interpretation, validity, or essentiality of patents/patent claims.
 - Don't discuss specific license rates, terms, or conditions.
 - Relative costs of different technical approaches that include relative costs of patent licensing terms may be discussed in standards development meetings.
 - Technical considerations remain the primary focus.
 - Don't discuss or engage in the fixing of product prices, allocation of customers, or division of sales markets.
 - Don't discuss the status or substance of ongoing or threatened litigation.
 - Don't be silent if inappropriate topics are discussed. Formally object to the discussion immediately.

For more details, see *IEEE SA Standards Board Operations Manual*, clause 5.3.10 and *Antitrust and Competition Policy: What You Need to Know* at <http://standards.ieee.org/develop/policies/antitrust.pdf>

PATENT-RELATED INFORMATION

The patent policy and the procedures used to execute that policy are documented in the:

- ***IEEE SA Standards Board Bylaws***
(<http://standards.ieee.org/develop/policies/bylaws/sect6-7.html#6>)
- ***IEEE SA Standards Board Operations Manual***
(<http://standards.ieee.org/develop/policies/opman/sect6.html#6.3>)

Material about the patent policy is available at
<http://standards.ieee.org/about/sasb/patcom/materials.html>

**If you have questions, contact the IEEE SA
Standards Board Patent Committee
Administrator at patcom@ieee.org**

Participant behavior in IEEE-SA activities is guided by the IEEE Codes of Ethics & Conduct

- All participants in IEEE-SA activities are expected to adhere to the core principles underlying the:
 - [IEEE Code of Ethics](#)
 - [IEEE Code of Conduct](#)
- The core principles of the IEEE Codes of Ethics & Conduct are to:
 - *Uphold the highest standards of integrity, responsible behavior, and ethical and professional conduct*
 - *Treat people fairly and with respect, to not engage in harassment, discrimination, or retaliation, and to protect people's privacy.*
 - *Avoid injuring others, their property, reputation, or employment by false or malicious action*
- The most recent versions of these Codes are available at <http://www.ieee.org/about/corporate/governance>

Participants in the IEEE-SA “*individual process*” shall act independently of others, including employers

- The [IEEE-SA Standards Board Bylaws](#) require that “*participants in the IEEE standards development individual process shall act based on their qualifications and experience*”
- This means participants:
 - **Shall act & vote** based on their personal & independent opinions derived from their expertise, knowledge, and qualifications
 - **Shall not act or vote** based on any obligation to or any direction from any other person or organization, including an employer or client, regardless of any external commitments, agreements, contracts, or orders
 - **Shall not direct** the actions or votes of other participants or retaliate against other participants for fulfilling their responsibility to act & vote based on their personal & independently developed opinions
- By participating in standards activities using the “*individual process*”, you are deemed to accept these requirements; if you are unable to satisfy these requirements then you shall immediately cease any participation

IEEE-SA standards activities shall allow the fair & equitable consideration of all viewpoints

- The [IEEE-SA Standards Board Bylaws](#) (clause 5.2.1.3) specifies that *“the standards development process shall not be dominated by any single interest category, individual, or organization”*
 - This means no participant may exercise *“authority, leadership, or influence by reason of superior leverage, strength, or representation to the exclusion of fair and equitable consideration of other viewpoints”* or *“to hinder the progress of the standards development activity”*
- This rule applies equally to those participating in a standards development project and to that project’s leadership group
- Any person who reasonably suspects that dominance is occurring in a standards development project is encouraged to bring the issue to the attention of the Standards Committee or the project’s IEEE-SA Program Manager

Voting Membership

- Voting membership in 802.1 is a privilege that holds a responsibility to review drafts and vote on WG ballots (including ePolls)
- You must actively request to become a voting member and take on this responsibility
 - Email WG Chair and Recording Secretary
- Ongoing retention of 802.1 voting rights is predicated on active participation
 - Attendance and Working Group ballots (including ePolls)

Responding to WG ballots

- To retain your voting membership, you must return 2 out of the last 3 WG letter ballot series (WG ballots + ePolls).
- When you return your vote on a TG/WG ballot;
 - Do use the correct email list (STDS-802-1-ballot@listserv.ieee.org) and subject line, as specified in the email instructions (viewable on the [main 802.1 Email archive](#)).
 - If you do not, the automatic tools will not count your vote.
 - Do not simply “Reply” to the ballot announcement.
- When you lose your voting membership this way, you lose all your qualifying attendance credit.
 - If you want to become a voting member again, you have to notify the WG Chair and Recording Secretary that you wish to become a voting member again.

The following are 802.1 voting members (73):

Akizuki, Katsuyuki	Farkas, Janos	Lyu, Lily	Seewald, Maik
Alexandris, Konstantinos	Fedyk, Donald	Mangin, Christophe	Sivakolundu, Ramesh
Arunarathi, Venkat	Finn, Norman	Mansfield, Scott	Specht, Johannes
Assmann, Ralf	Garner, Geoffrey	Mater, Olaf	Stamenic, Nemanja
Bao, Huajie	Gunther, Craig	McCall, David	Stanica, Marius

Enzinger, Thomas	Li, Yizhou	Schewe, Frank	
	Lopes, Joao	Seaman, Michael	

The following became voting members this week:

None

The following could become voting members if they email me and the Recording Secretary indicating their intention to do so and if they attend this session:

Bierschenk, Jens

Coelho, Rodrigo

Du, Zongpeng

Gravel, Mark

Han, Ruibo

Jenkins, Michael

Klamser, Oliver

McIntosh, James

Roy, Rajeev

Wang, Jing

Zeh, Alexander

The following will lose voting member status for lack of qualifying attendance, unless they attend this session:

Elbakoury, Hesham

The following could lose their voting membership at the end of this plenary session through lack of qualifying WG letter ballot voting :

None

802.11 Reciprocal credit

- 802.1 voting members may receive credit for attending any of 802.11
- 802.1 voting members who are also 802.11 voting members may get a popup in IMAT each time they register attendance to ask which working group they are accumulating credit for this plenary.
- 802.1 attendance credit will not be granted for a voting member who attended only 802.11 meetings.

•

Nendica ICAID

- Extended (Sept 2023) through Sept 2025 ICCom/CAG
- ICCom offered auto-renewal
 - Will be renewed each two years, absent request otherwise
- Saves significant bureaucratic effort
- Per IEEE 802 LMSC Operations Manual, v25 (19 Nov 2021)
 - *ICCom requires the IEEE 802 LMSC to approve the Industry Connections Activity Initiation Document (ICAID).*
 - *A proposed ICAID and supporting documents shall be submitted to the IEEE 802 LMSC ... for review ...*
 - Since no ICAID is required for auto-renewal, auto-renewal without IEEE 802 authorization appears to be allowed.
 - Would be better to have formal IEEE 802 motion authorizing auto-renewal; e.g.
 - “To endorse future auto-renewals of the IEEE 802 Nendica ICAID”
 - Perhaps with a schedule for reminding the 802 EC each two years.
 - No immediate action needed.

YANGsters

- <https://1.ieee802.org/yangsters/>
- <https://1.ieee802.org/yangsters/yangsters-guidelines/yangsters-faq/>

Since September Interim 2023

- [Stream split table in IEEE 802.1CBcv-2021 FRER YANG \(#364\)](#)
 - <https://www.ieee802.org/1/files/public/docs2023/cb-dorr-split-table-maint-0364-0923-v01.pdf>
 - <https://www.ieee802.org/1/files/public/docs2023/new-specht-tpes-0623-v02.pdf>
 - Further discussion needed on this maintenance item

Bridge Modeling Issues

- Related to how bridge-ports and interfaces are used, considerations on how to make augmentations easier to do specifically if "when" statement in base model is too restrictive.
 - See <https://github.com/samans/draft-ybam-rtc8561bis/issues/19>
 - Further discussion in IETF
- The publication of Qcw will address the issue related to the broken component modeling
 - when statements and XPath updates were needed

YANG Scalability Issue

- <https://www.ieee802.org/1/files/public/docs2023/yangster-s-boyd-scalable-yang-1123-v01.pdf>
- Continue to consider how to support a restructure of IEEE YANG modules to support a scalable solution.

Constrained Environments

- <https://www.ieee802.org/1/files/public/docs2023/yangster-s-smansfield-sid-yang-1123-v01.pdf>

To Do

- Continue the scalability discussion
 - Involve the IETF YANG Doctors and NETMOD/NETCONF Working groups
- Continue Constrained Environments discussion
 - Determine if RAC is needed
 - Get IETF YANG Doctor support/opinion
- Discuss how to be better support the Standards publication process for YANG and MIBs (see YANG Validation slide below)

YANG "sanity"

- Published YANG is up to date
- Draft YANG should be reviewed to determine what YANG needs to be updated in repository
- Contact YANGsters if help is needed to validate or interact with the repository

IEEE 802.1 Liaison Relationship

- Liaison Relationship:
 - A cooperation facilitating a close working relationship between organizations typically via Liaison Statements, Liaison Officials or Liaison Facilitators.
- Liaison Relationship for 802:
 - Internet Engineering Task Force (IETF)
 - Coordinator: Dorothy Stanley
 - ISO/IEC JTC 1/SC 6 Telecommunications & info exchange between systems
 - Coordinator: Peter Yee
- Joint work with 802.1 (not liaison relationships):
 - IEC TC 65 SC65C/WG18
 - SAE AS-1 A2
- Liaison Relationship for 802.1:
 - None for now

<p>As described in preceding clauses (18.1 onwards) the ieee802-dot1as-ptp.yang module imports (as a whole) the ieee1588-ptp.yang module. The text at pg 33 line 29 makes it clear that is to be done by a URL reference to the YANG module. YANG modules are identified by name, and that name does not change when the module is updated. While the reference is stated to be to the "published" module, that "published" module can be changed without reference to IEEE Std 802.1AS. Changes to the ieee1588-ptp.yang module could therefore make prior conformant ieee802-dot1as-ptp.yang module implementations non-conformant (omitting new mandatory features) or apparently obsolete (by depending on some 1588 leaf which has been moved to "obsolete" status. There appears to be nothing in Clause 5 Conformance to identify the specific date/revision of a claim of conformance, or to support such dating in the PICS, or to address the issue of a valid implementation becoming out of conformance. This problem can in part be addressed by such provisions in this standard, but will also require some support in the retention (and identification of) successive revision of the 1588 module.</p>				
<i>SuggestedRemedy</i>				
Address this issue in both the Conformance clause (allowing/requiring claims to specify exactly what 1588 published module revision is is being used) and in the PICS.				
<i>Response</i>		<i>Response Status</i>		
REJECT.		C		
<p>IEEE 802.1AS does not explicitly prohibit use of optional features from IEEE 1588 amendments and revisions. There are products in the field that support such features. This request would bring inconsistent conformance for YANG features of IEEE 1588 compared to non-YANG features of IEEE 1588.</p>				
<p>In addition, IEEE 1588 and IEEE 802.1AS have joint membership to facilitate communication, and there is trust that IEEE 1588 will not break compatibility in the future. Note that compatibility is not limited to YANG, and not limited to IEEE 1588.</p>				
<p>Therefore, ieee1588-ptp.yang continues to use the import without a specific revision, and the P802.1ASdn PDF does not limit ieee1588-ptp.yang to a specific revision.</p>

This comment is on comment response to comment 143 of D1.0. "The scope of the PAR addresses those changes and extensions required to make hot standby work in an appropriately configured network. These necessarily include changes that would defeat compatibility with plug-and-play networks and other networks without support of hot standby."

This statement is incorrect even without these changes hot standby would work in networks not using the "plug-and-play" functions of the standard. externalPortConfigurationEnabled=TRUE is an valid and allowed configuration even without these changes on all domains incl. domain 0.

SuggestedRemedy

Revert the changes or change the scope of the project to include these changes, i.e. include in the scope to add the concept of profiles.

Throughout 802.1Q, "credit-based shaper" is not capitalized, except when it occurs at the beginning of a sentence or title, in which case "Credit-based shaper" is used.

SuggestedRemedy
Correct capitalization throughout as indicated, with the exception of the title of the amendment where "Credit-based Shaper" or "Credit-Based Shaper" should be used (the IEEE has recently decided on maximal capitalization in standard/amendment titles, which rule is inconsistent with usage elsewhere -).

The wording of the Abstract is not accurate. YANG data models already allow configuration and status for bridges and end stations with credit-based shaper capabilities, they just cover other capabilities.

Comment Type **TR** **Comment Status** **A**

This amendment provides two YANG models for CBS (one augmenting bridge-port and the other augmenting directly ietf-interfaces) with the intention of supporting both bridge and end-station implementations. This would make CBS the only 802.1Q mechanism for which this "ad-hoc end-station YANG support" is provided.

The risk of this addition is that it can be interpreted as if "end-station YANG support" is an exclusive feature of CBS, and technically not possible for other 802.1Q mechanisms, which is not true. The way YANG models were re-structured (base grouping + attachment to bridge-port) was precisely intended to enable end-station support as well as support for other type of devices.

SuggestedRemedy

Possible solutions:

A) add "add-hoc end-station YANG support" (YANG model augmenting IETF interfaces) for all the other 802.1Q mechanisms for which this can be applied.

B) remove "add-hoc end-station YANG support" (YANG model augmenting IETF interfaces) and add a sub-clause or an annex explaining how end-station YANG support can be achieved with the existing base YANG models, and the list of 802.1Q mechanisms for which this can be applied.

Inconsistent with Clause 12.34.1 (P17L8): "... per Port of a Bridge component or end station" vs "... per Port of a Bridge component".

SuggestedRemedy

Make both lines consistent. Note that mentioning both (bridge and end station) will make it more consistent with the YANG modules currently in this amendment, but it will be inconsistent with other sub-clauses in Clause 12, for example 12.29.1.
