2	Section number	Provide in this cell the section.subsection.sub... number to which your comment applies., Multiple entries are possible.

5	Part of NO vote	Enter an "N" to show whether this row of your comment constitutes part of your "do not approve" (NO) vote. IEEE requires: This vote shall be accompanied by specific reasons in sufficient detail so that the specific wording of the changes that will cause the negative voter to change his or her vote to "approve" can readily be determined.
6	Corrected text/Comment	Copy here the part of the text that has to be removed or modified. Make your modifications with Tools, Revisions, Mark revisions in ON state. If you need to have pictures included, or if the involved text is substantial, we suggest that you assign a page to this comment or request a document number, with a pointer to that section or document in this cell.
7	Rationale	Indicate in this cell the rationale for your proposed text or comment. If you have comments that have already been rejected in the issues list or in the rebuttals of previous ballots, you need to provide new arguments in order to make your comment valid.
8	Disposition/Rebuttal	This cell is not for use in the commenting phase. Do not use.

When you have completed a comment row, press TAB in the "Disposition/rebuttal" column to generate a new row in the table.

Note: The Letter Ballot Form features a separate row with column titles below the entry row, With this addition, you will always have the column titles at hand where you are working, without the need to peek in the header.

**Important: Do not change the attributes of the table, such as the column width!**

<sup>1</sup> Refer to the list below to find your initials as standardized to prevent two balloters using the same initials.
