Wireless Access Method and Physical Specification

Title: **Tentative Minutes to IEEE P802.11 IR Sub-Group**
San Diego, CA
Dates: March 1996

Minutes of the IEEE802.11 IR Sub-Group Meeting
held at the Hyatt Hotel, San Diego, 12 Mar 96

Meeting opened by Francisco J. López-Hernández at 20 :10PST. Manuel J. Betancor volunteered to be Secretary for the meeting.

Agenda.

1. Comments on Draft-3 Letter Ballot Comments Clause 16 - IR

1. Agenda accepted.

2. Comments on Draft3 Clause 16 : IR

Discussion on the comments n. 14, 56 and 78 by Ronald Mahany. The polynomial description must be common for all PHY. The comments are accepted unanimously. To be referred to full PHY group.

Discussion on the comments n. 75, 77 and 79 by Johnny Zweing. To be referred to full PHY group.

Discussion on the comment n. 76 by Michael Fischer on 16.22., 16.2.4.3 and 16.4.

To discuss this comment Francisco and Manuel were talking to Michel Fisher, Vic and Kwang-Cheng about that. The comment is divided in two items, one for DR (Data Rate) and the other for PLPC header. The resolution on both is do not take any decision on that. To be referred to full PHY group.

Discussion on the comment n. 80 by Ronald Mahany. The comment is accepted. New figure is asked. Manuel is presenting a new figure as a new paper.

Discussion on the comment n. 81 by Valerie Zelenty. Not applicable to this clause.

Discussion on the comment n. 91 by Johnny Zweig. The comment is rejected unanimously. As defined in clause 13.1.4.6, aRxTx_Turnaround_Time is less than 1 microsecond for the IR PHY, so it should be kept zero

Adjourned at 20 :45PST
