Reference: Standards Recommendation Relating to Technology Being Proposed by
GBT Incorporation, for Inclusion in the IEEE P802.11b Standards Projects

Dear Mr. Hayes,

This letter is to confirm to the IEEE that Golden Bridge Technology ("GBT") will provide licenses for its patents with respect to the referenced proposal. In this regard:

GBT hereby declares that although no search has been conducted, it is prepared to negotiate licenses under its existing patents directed to and necessary for the practice of the referenced technology, if GBT's proposals are adopted by the IEEE, on fair, reasonable and non-discriminatory terms and conditions to qualified applicants in accordance with the IEEE Patent Policy. Such negotiations will be held with the parties concerned and will be performed outside of the IEEE. Such negotiations will also be subject to the condition that if a potential licensee owns or controls patent rights, the potential licensee covenants to grant GBT licenses under these patents on fair, reasonable and non-discriminatory terms and conditions.

This letter does not grant any right to the IEEE with respect to GBT's copyrights or other intellectual property rights which cover contributions to the proposed standard, other than as provided above. However, any party interested in the license described above may contact the undersigned in writing at the address on the letterhead, by phone at +1 732 870 8088, or by facsimile at +1 732 870 8088.

Yours truly,

Feliciano Giordano
President
