HomeRF™ Working Group

4th Liaison Report

HomeRF™ Mission Statement

To enable the existence of a broad range of interoperable consumer devices, by establishing an open industry specification for unlicensed RF digital communications for PCs and consumer devices anywhere, in and around the home.

HomeRF™ Response to WPAN

- The HomeRF WG recently granted to a select number of individuals of the IEEE 802.11 WPAN SG the ability to review in full technical detail revision 0.9 of the SWAP-CA specification
- In addition, there has been a request to inform the SG of the activities of the emerging HomeRF Lite subcommittee
  - Next meeting is November 20, 1998 at the Flamingo Hilton Hotel in Las Vegas

WPAN’s Review Team

- The following WPAN SG members have volunteered to review the SWAP-CA rev. 0.9 specification for applicability to WPAN
  - Bruce Kraemer - Harris Semiconductor
  - Ian Gifford - AMP
  - Steve Shellhammer - Symbol technologies
  - Bob O’Hara - Informed Technology
  - Tim Blaney - Commcepts (liaison)
HomeRF™ Position

• The HomeRF WG is interested in continuing the open dialogue with the WPAN SG, in particular with the emerging HomeRF Lite activities

• The WG is open to investigating the possibility of the WPAN SG “standardizing” a version of their SWAP-CA implementation, or the emerging HomeRF Lite technology

• Feedback from the SG’s review of the specification will be presented to the WG at their next steering committee meeting

HomeRF™ Lite’s Mission Statement

To bring about the existence of a broad range of interoperable consumer devices by establishing open industry specifications for unlicensed, untethered peripheral, control and entertainment devices requiring the lowest cost and lowest power consumption communications between compliant devices anywhere in and around the home
HomeRF™ Lite MRD Timeline

- Adoption of Mission Statement by Subcommittee (complete)
- Distribution of Mission Statement for review by Steering Committee by 10/12 (complete)
- Review of Mission Statement by Steering Committee by 10/19 (complete)
- First Pass of MRD expected to be ready for distribution by 11/9 (Rev 0.1)
- SWAP-Lite Subcommittee meeting to review MRD at Comdex
  - Meeting is 11/19 at the Flamingo Hilton Hotel

MRD Timeline (Cont.)

- Second Pass of MRD expected to be ready for distribution by 12/14
  - 0.95 Technical meeting in early December
- Adoption of MRD by HomeRF-Lite subcommittee prior to Full WG meeting expected to occur in February 1999
  - Submission to HomeRF reflector 2 weeks prior to meeting
- Presentation to HomeRF WG for review in February 1999
- Creation of Technical Specification begins
