The meeting was called to order at 8:30am on November 10. Attending were Allen Heberling, Victoria Poncini, Larry Moss, and Bob O'Hara.

The revised state machines prepared by Allen were reviewed for the correct implementation of the instructions to the editor in the approved 802.11rev document. The majority of the instructions were properly implemented. Only a few minor errors were detected and subsequently corrected.

Larry and Allen gave a demonstration of the SDL tools from Telelogic, showing the operation of a facility access controller and portions of the 802.11 MAC.

The meeting was adjourned at 10:00am on November 11, 1998.
