Travel to Thailand

Entry Requirements and Documentation Applications

Upon arrival in Thailand, foreign citizens must hold a valid passport (with at least six months validity), a valid Thai visa, and proof of onward travel. Visitors from ASEAN, Western countries (including most Europeans), Commonwealth, and North American citizens, are not required to have a Thai visa for visits less than 30 days in Thailand.

Thailand Convention and Exhibitions Bureau (TCEB) Letter of Support

TCEB has issued a letter to the Department of Consular Affairs, Ministry of Foreign Affairs of Thailand. The letter confirms that TCEB is supporting IEEE 802 Plenary Session November 2026 and requests the Department's assistance in informing all Thai embassies, consulates-general, and consulates.

Many IEEE 802 Plenary Session attendees are covered by Thailand's Visa Exemption Scheme and as a result do not need a Visa to enter Thailand for the November 2026 IEEE 802 Plenary Session and preceding AdHoc session.

Check your status on the following website: https://www.thaievisa.go.th/

Attendees who require a visa may proceed with their TR-MICE visa applications. The relevant Thai embassies and consulates will contact TCEB directly to verify TCEB support for the event.

Emailed TCEB Letter of Support

We have issued an email to InPerson attendees with information about accessing this letter so they can print and carry it with them during their travels.

Please do not post or share this letter with non-registered attendees, as public posting is strictly prohibited.

IEEE Letter of Invitation

A link to a Letter of Invitation will be included in your confirmation email once your registration and payment are processed.
