Hi All

Even though Atlanta was cancelled, we still have some essential WG business to complete in order to keep things moving forward, especially with 15.4. The revision is currently at 100% approval and is in a final SA Ballot recirculation. Next step is to forward to RevCom. In order to do that, we need both WG and EC approval. This ballot is for WG approval. Please vote YES, NO, or ABSTAIN. No comments are needed to support a NO vote. This is a mandatory ballot and will count towards maintaining your voting rights. **Ballot closes Thursday, March 19 at 5pm et**

Motion: *that 802.15 WG requests unconditional approval from the EC to submit 802.15.4 Revision 4 -D06 to RevCom.*

Moved: Gary Stuebing  
Second: Don Sturek
