Re: IEEE P802.15.3 / Patent License Policy

We are writing to you with respect to our patent license policy for the standardization of the IEEE P802.15.3 Working Group.

If IEEE adopts a standard for the specification to be proposed by the IEEE P802.15.3 Working Group, Sony Corporation will grant to any third party ("Requester") a personal, non-exclusive license on fair, reasonable and non-discriminatory terms for only that portion of any product that is fully compliant with that standard, under any of its patents that would necessarily be directly infringed by the manufacture, sale, and use of such product solely because it is fully compliant with that standard, provided that a similar grant under such Requester's patents within the scope of the license granted to such Requester is made available to Sony Corporation.

Very truly yours,

Fumihiko Moriya  
General Manager  
Licensing Department
