

Call for Comments

IEEE 802.16 License-Exempt Task Group

Deadline: 28 February 2006

IEEE 802.16's License-Exempt (LE) Task Group <<http://ieee802.org/16/le>> is working to develop a draft under the P802.16h PAR, which was approved by the IEEE-SA Standards Board on 8 December 2004. The PAR: http://ieee802.org/16/docs/04/80216-04_56r1.pdf

has the following scope statement: "This amendment specifies improved mechanisms, as policies and medium access control enhancements, to enable coexistence among license-exempt systems based on IEEE Standard 802.16 and to facilitate the coexistence of such systems with primary users."

The Task Group has been maintaining a pre-draft Working Document. The current version is available as IEEE 802.16h-06/004: http://ieee802.org/16/le/docs/80216h-06_004.zip

Comments should be submitted using the Commentary tool, which can be downloaded from: <http://ieee802.org/16/docs/Commentary>

The identified topics for comments include:

1. High level text in 15.2.1.1
2. Definition of the process for Adaptive Channel Selection – 15.4.1
3. Entering a community over the air (without using GPS coordinates) – 15.2.1.3
4. Communication using the Coexistence Time Slot - unify the existing approaches
5. Possibility of BS-BS communication over the air – 15.6.6
6. Default value for the "same MAC Frame duration" and channel width in a coexistence profile – 15.2.2.3.1
7. Coexistence with preferred spectrum users, such as "wireless microphones" and "emergency systems" – 15.3.2
8. All the chapters "calling for comments"

The comments / contributions will be considered non-confidential and will be posted for public access on the IEEE 802.16 Web Site <<http://WirelessMAN.org>>.

Submit your contribution by the **deadline of 28 February 2006** following the instructions at <<http://WirelessMAN.org/submit.html>>. Make use of the "le" upload directory: <<http://le.WirelessMAN.org>>
