Venue:

Session #49, 7-10 May 2007

Base Document:

Purpose:

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

LE Task Group Report

Mariana Goldhamer, TG LE Chair

Alvarion

Resolution of comments on P802.16h/D2

– Output comment data-base

- IEEE 802.16-06/016r6
- Comments
 - 169 comments
 - 53 accepted
 - 56 accepted-modified
 - 1 accepted-clarified
 - 33 rejected
 - 22 superceeded
 - 4 withdrawn
- 18 contributions
- TG agreed on the consolidation of the CXCC (Coexistence Control Channel)

Status of LB#24

- *Most recent draft:* [IEEE P802.16h/D2](#)
- Approval ratio: 70%
- Ballot failed to pass the necessary approval ratio
- Task Group plan:
 - Terminate Letter Ballot #24
 - Allow the Task Group to improve the draft
 - Call for comments and resolve in the next session
 - Subsequently open a new Letter Ballot

Motion

– To:

- (a) Authorize the LE TG Editor to create Working Group Draft IEEE P802.16h/D2b based on the comment resolutions recorded in database IEEE 802.16-07/016r6;
- (b) Terminate the Working Group Letter Ballot #24
