To: Bernard Aboba, IETF Liaison to IEEE 802; Co-Chair, IETF EAP Working Group

Dear Mr. Aboba,

In our previous communication IEEE L802.16-05/025, we noted two specific areas of our current work that could particularly benefit from review and input from the IETF: a) the Management Information Base for fixed broadband wireless access currently under development in the P802.16f project; and b) P802.16e's use of the Extensible Authentication Protocol.

To that end, we would like to appoint Mr. Jeff Mandin to act as liaison to the IETF for these and related issues.

We would like to express our continued appreciation for the enthusiasm that IETF members have shown in assisting the IEEE 802.16 WG on these matters. We look forward to continued future cooperation.

Sincerely,

Roger B. Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
