Session #48 802.16 ITU-R Liaison Group Opening Report
12 March 2007

ITU-R Liaison Official: José Costa

Information Items

- IEEE contribution to the ITU Conference Preparatory Meeting (CPM) (19 February – 2 March 2007):
  - "Support for the allocation/identification of spectrum for terrestrial services under WRC-07 Agenda Item 1.4" (Document CPM07-2/14).
  - Provisional Report of the CPM to WRC-07.

- ITU-R Member States approved these Recommendations, among others (8 March 2007)
  (to be announced: http://www.itu.int/md/R00-CACE-CIR/e):
  - Recommendation ITU-R M.[8A/VOC.LAND.MOB] – "Vocabulary of terms for the land mobile service" (Doc. 8/154(Rev.1)).
  - Recommendation ITU-R M.[8A/BWA] – "Radio interference standards for broadband wireless access systems, including mobile and nomadic applications, in the mobile service operating below 6 GHz" (Doc. 8/167(Rev.1)).

Input Liaisons and Action Items

- IEEE L802.16-07/007: Liaison from ITU-R WP 8F to IEEE and WiMAX Forum re Rec. M.1457 (2007-02-13)

- IEEE L802.16-07/008: Announcement of Proposed sixth terrestrial radio interface for IMT-2000 in Rec. ITU-R M.1457 (2007-02-14)

- IEEE L802.16-07/009: Liaison Statement from ITU-R WP 8F on the preliminary draft new Report ITU-R M.[IP CHAR] "Key technical and operational characteristics for access technologies to support IP applications over land mobile systems" (2007-02-16)

- -

- Preparation of response to IEEE L802.16-07/007 [one contribution: C802.16-07/005]: Meeting 12 March 2007, 16:00-18:00 hours

- Contributions regarding IMT-Advanced Requirements [one contribution: C802.16-07/006]: Meeting 12 March 2007, 16:00-18:00 hours

- IP-OFDMA Evaluation Group Coordination Meeting: 13-14 March

MOTION

- To authorize the ITU-R Liaison Group to draft documents based on received input contributions, tentatively approve them on behalf of the WG (subject to confirmation at the .16 closing plenary) and submit them for 802.18 review.
