To: Wonil Roh, Vladimir Yanover
Chairs, WiMAX Forum Technical Working Group

Subject: Response to WiMAX Forum Liaison Statement IEEE L802.16-08/065 on clarifications
and corrections to IEEE Std 802.16

Dear Wonil and Vladimir,

Thank you for your liaison statement (IEEE L802.16-08/065) of 8 November 2008 detailing issues
with IEEE Std 802.16 related to interoperable test certification development. All of the issues
identified in Appendix A were resolved during the IEEE 802.16's Session #58 in Dallas from 10-13
November. Each of the approved remedies will be included in the new draft IEEE 802.16Rev2/D8
that will be available within a few weeks. The specific remedies for each one of the issues are
contained in IEEE C802.16maint-08/345r2 and are consistent with the contemplated remedies
proposed in your statement. Note that the Revision is still under development and is not yet a final
published standard.

Should a similar need arise in the future, the 802.16 Working Group welcomes the opportunity to
assist with resolving such issues in a timely manner. Please also note that IEEE 802.16 Working
Group has a maintenance process, explained in IEEE 802.16-06/046, that will be followed when the
Revision 2 project is completed.

Regards,

Roger B. Marks
