Call for Comments and Contributions for IMT-Advanced Submission

Deadline: 24 August 2009 AOE

The IEEE 802.16 Working Group is developing an IEEE 802.16m based Candidate IMT-Advanced Radio Interface Technology (RIT) proposal, based on the 802.16m System Description Document [1] and the 802.16m Amendment Working Document [2]. The RIT proposal is being developed per the schedule described in the IEEE 802.16 ITU-R Liaison Group Work Plan [3].

Call for Comments and Contributions on the IMT-Advanced Contribution #3

This announcement requests comments on development of Contribution #3 for IMT-Advanced candidate RIT submission under development by the ITU-R Liaison Group. Contribution #3 consists of three parts, drafts of which are listed below.

- [Draft] submission of a candidate IMT-Advanced RIT based on IEEE 802.16 (Part I) - L802.16-09/0050d1

- [Draft] submission of a candidate IMT-Advanced RIT based on IEEE 802.16 (Part II) - L802.16-09/0051d1

- [Draft] submission of a candidate IMT-Advanced RIT based on IEEE 802.16 (Part III) - L802.16-09/0052d1

These documents are available at <http://itu.wirelessman.org>.

Specifically, the ITU-R Liaison Group requests input regarding simulation results relevant to the proposal evaluation and completing PCT and finalizing LBT as contained in Contribution #3. Contributions should outline intended simulation methodology and include detailed results for various Test Environments. Joint work is encouraged to minimize unnecessary duplication.

Comments should be submitted in *contribution* format, showing mark-ups to the above documents as necessary.

Correspondence Plan

To enable expedient development of the templates and the simulation package contained in Contribution #3, the ITU-R Liaison Group will initiate correspondence activity to

discuss early contributions. This correspondence activity will be chaired by the ITU-R Liaison Group Chair and will continue up to IEEE 802.16 Session #63. The correspondence activity includes teleconferences as needed, with notice provided to the 802.16 WG reflector. In particular, following dates are set for teleconferences.

1) 20 August 2009
2) 25 August 2009

Teleconference times and dial-in information will be announced on the 802.16 WG reflector. Additional teleconferences may be scheduled as needed.

Contributions must make use of the current IEEE 802.16 Document Submission Template, Rev. 9 (2007-06-17) <http://ieee802.org/16/submit.html>.

Use the "itu" upload directory at <http://itu.wirelessman.org> to post contributions. Contributions will be considered non-confidential.

For further information, contact one of the following:
IEEE 802.16 Working Group Chair: Roger Marks <r.b.marks@ieee.org>
IEEE 802.16 ITU-R Liaison Group Chair: Reza Arefi <reza.arefi@intel.com>
IEEE 802.16 Task Group m Chair: Brian Kiernan <brian.kiernan@interdigital.com>

Contact the Working Group Chair if you need password assistance.
