Base Document:

Purpose:

IEEE 802.16 Maintenance Task Group Session #34 Closing Report

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

IEEE 802.16 Maintenance Task Group

Session 34 report

Statistics

- **Start**
 - 256 new comments giving 609 total.
 - 480 unresolved comments including 224 left over from session 33.
- **Final**
 - Reviewed: 200
 - Accepted or accepted modified: 126
 - Rejected: 15
 - Superseded: 51
 - Withdrawn: 4
 - Out of Scope: 4
 - Unresolved: 280
 - Late: 7

Request for Interpretation

- Reviewed two formal requests for interpretation consisting of a total of 4 questions
 - Two questions were a misunderstanding of the standard
 - One question identified an issue already identified by comment #252
 - One question identified a term that needs to be defined – will add a comment to the database

Process

- Create a new version, 80216maint-04_04r9.USR, of the comment database, to include the resolution from this week and to include late comments.
- Create a working document from the currently resolved comments from 80216maint-04_04r9.USR.
- Make a call for additional reply comments on the unresolved comments in 80216maint-04_04r9.USR.
- Make a call for comments on the working document.
- At session 35 resolve the remaining comments in 80216maint-04_04r9.USR and the comments on the working document, giving priority to the unresolved comments in 80216maint-04_04r9.USR.
