Call for Editorial Comments on
P802.16Rev2/D0b

Deadline: 12 July 2007

The IEEE 802.16 Working Group's Maintenance Task Group <http://WirelessMAN.org/maint> is assigned to develop a draft revision (designed P802.16Rev2 within the Working Group) of IEEE Std 802.16. In preparation, the TG has circulated for comment an editorial consolidation of IEEE Std 802.16-2004, IEEE 802.16e, and IEEE 802.16f. Following resolution of comments intended to check the integrity of the consolidation, the project editorial team has prepared document P802.16Rev2/D0a.

At Session #49 in May 2007, the WG decided to create a new document P802.16Rev2/D0b by incorporating the material in the corrigendum draft P802.16-2004/Cor2/D4 into P802.16Rev2/D0a. Both P802.16Rev2/D0a and P802.16Rev2/D0b (neither of which is approved as a WG draft standard) are available:

<http://ieee802.org/16/pubs/80216Rev2.html>.

In accordance with its decisions at Session #49, the Task Group is issuing this Call for Comments regarding editorial issues in P802.16Rev2/D0b. Comments on the accuracy and completeness of the merger of the pre-existing documents are welcome, as are other editorial comments. Technical comments are not requested at this stage. Comments will be reviewed at Session #50 < http://WirelessMAN.org/meetings/mtg50>.

Comments must be prepared for submission using *Commentary 2*, available at:

<http://ieee802.org/16/docs/Commentary>.

Any supporting document contributions must make use of the new IEEE 802.16 Document Submission Template, Rev. 9 (2007-06-17) <http://WirelessMAN.org/submit.html>.

Comments and any supporting document contributions shall be submitted by the **deadline of 12 July 2007 AOE** following the instructions at <http://WirelessMAN.org/submit.html>.

Make use of the "maint" upload directory <http://maint.WirelessMAN.org>.
