

Call for Comments on Project 802.16g Baseline Task Group Document IEEE 802.16g-05/008:

Air Interface for Fixed and Mobile Broadband Wireless Access Systems – Management Plane Procedures and Services

Deadline: 8 November 2005

On 12 August 2004, the IEEE-SA Standards Board approved the IEEE 802.16 Working Group Project Authorization Request (PAR) P802.16g to develop a new amendment to IEEE Standard 802.16-2004, as amended by the future 802.16e. The PAR <http://iee802.org/16/docs/04/80216-04_35r4.pdf> addresses “Management Plane Procedures and Services,” with the scope:

This document provides enhancements to the MAC and PHY management entities of IEEE Standard 802.16-2004, as amended by P802.16e, to create standardized procedures and interfaces for the management of conformant 802.16 devices.

The IEEE 802.16 Working Group’s Network Management (NetMan) Task Group <<http://WirelessMAN.org/netman>> has been assigned to develop the draft. At the WG’s Session #39, the NetMan TG agreed to update the prior Baseline Task Group Document with the resolution of comments <http://iee802.org/16/netman/80216g-05_010r3.zip>.

This Call for Comments requests input relevant to the new Baseline Task Group Document IEEE 802.16g-05/008r1 <http://iee802.org/16/netman/docs/80216g-05_008r1.pdf>.

Submit your comments (with or without associated contributions) by the **deadline of 8 November 2005** following the instructions at <<http://iee802.org/16/docs/Commentary>> and <<http://iee802.org/16/submit.html>>.

Contributions should be included only if the Problem discussion and/or Proposed Remedy are so substantial as to require the contribution format for appropriate presentation. Any contribution shall be referenced by an appropriate comment.

Make use of the “NetMan” upload directory <<http://netman.WirelessMAN.org>> to post both your comments and any contributions. Comment files should be submitted in the name format ‘16gComments_YourName.usr’. Contribution document naming format will follow the standard IEEE 802.16 naming convention using ‘g’ for the project designation, with the format ‘C802.16g-05/ijk’. Comments and contributions will be considered non-confidential and will be posted for public access on the IEEE 802.16 Web Site <<http://WirelessMAN.org>>.

This is not a ballot and no vote to ‘Approve’ or ‘Disapprove’ the document is appropriate at this time. This is a Call for Comments to improve the document and prepare it for Draft status.
