Re: Closing report for TCG

Abstract: Closing Report for TGC

Purpose: Closing Report for TGC

Notice: This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release: The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE’s name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE’s sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

Patent Policy and Procedures: The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <http://ieee802.org/16/ipr/patents/policy.html>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <mailto:chair@wirelessman.org> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <http://ieee802.org/16/ipr/patents/notices>. 
Task Group C received 30 sponsor ballot comments on document P802.16/Conformance03/D2-2003. The comments were resolved, and the resolutions are in document 802.16-03/59r2. The statistics are as follows:

<table>
<thead>
<tr>
<th>Action</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accepted</td>
<td>18</td>
</tr>
<tr>
<td>Accepted-Modified</td>
<td>4</td>
</tr>
<tr>
<td>Accepted-Duplicate</td>
<td>6</td>
</tr>
<tr>
<td>Superceded</td>
<td>1</td>
</tr>
<tr>
<td>Rejected</td>
<td>1</td>
</tr>
</tbody>
</table>

The task group is putting following motion forth to the working group at the 802.16 closing plenary:

"To accept IEEE 802.16-03/59r2 as the resolutions of the P802.16/Conformance03 Sponsor Ballot comments, initiate a recirculation, authorize Task Group C to resolve any resulting comments, conduct additional recirculations if necessary, and request conditional approval from the 802 EC to forward the final balloted draft to RevCom."
