Re:	Call for Contributions on Project 802.16d: IEEE Standard 802.16: 2-11 GHz System Profiles and Corrections of Errors in Base Standard. 18 Dec. 2002. Errata in IEEE 802.16a or 802.16c, or those in 802.16 not corrected in 802.16a or 802.16c.	
Abstract	There are a couple of retry counters and a timer needed by the spec, but missing from chapter 10.	
Purpose	Point out the omissions that should be corrected by the 802.16d amendment to 802.16.	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures < http://ieee802.org/16/ipr/patents/policy.html >, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair < mailto:chair@wirelessman.org > as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site < http://ieee802.org/16/ipr/patents/notices >.	

Errata – Missing timers and number of retries

Ken Stanwood

Ensemble Communications

Omissions

The number of retries for resending the SBC-REQ message when no SBC-RSP message is received is missing from table 118, where all other retry counters are specified.

The number of retries, and the timer to wait for resending the TFTP-CPLT message when no TFTP-RSP message is received is missing from table 118, where all other retry counters and timers are specified.

Edits

Add the following rows to table 118 in section 10.1.

SS	SBC Request Retries	Number of retries on SBC Request	3	3	16
SS	TFTP-CPLT Retries	Number of retries on TFTP-CPLT	3	3	16
SS	T22	Wait for TFTP-RSP	10 ms	200 ms	200 ms
