IETF IPORPR
(IP over Resilient Packet Rings)
Update

Chairs:

A. Herrera, aherrera@lanterncom.com

F.Kastenholz, fkastenholz@unispheresolutions.com

IPORPR WG Next Steps

- Charter shows completion of the framework document in August 2001.
  The document remains work-in-progress and will be left open and active.
  This will be refined as work progresses in IEEE 802.17.

- After November (802.17 cut-off for proposals) , IPORPR will go semi-dormant
  and wait until 802.17 comes close to producing substantial specs.
  Once that happens, IPORPR will re-charter itself to develop any needed
  protocol(s) for "IP over 802.17".

- The IPORPR mailing list will remain past November. Should individual IEEE
  participation bring up issues for discussion in the IETF, those will go on the
  mailing list.

- Individual cross participation is encouraged between the IEEE and IETF
  now and after November.

- Note: The IPORPR WG has no opinion on contributions / proposals made
  with regards to MAC development within IEEE 802.17.

IPORPR Info

- **Framework Document**
  http://ietf.org/internet-drafts/draft-ietf-iporpr-framework-01.txt

- **Mailing List Info**

  - General Discussion: iporpr@external.cisco.com

  - To join email reflector send mail to :
    iporpr-request@cisco.com
    with **subscribe iporpr** in body

  - Archive: ftp://ftp.ietf.org/ietf-mail-archive/iporpr/

- Note: Mailing List will be moved to ietf.org general mail server.
      List will be notified.
