**Perceived Problem** [ If more space is needed, please provide an additional file, preferably as plain text. ]

The term "flow" is used without a definition here and on page 380.

**Proposed Remedy** [ If more space is needed, please provide an additional file, preferably as plain text. ]

Replace "flow" with "conversation".

**Rationale For Remedy** [ If more space is needed, please provide an additional file, preferably as plain text. ]

IEEE 100 defines "flow" to mean something very different from how the term is being used in this standard. This standard provides no definition of "flow", thereby implying the IEEE 100 definition. The term "conversation" is defined in IEEE 100 and is consistent with the usage of "flow" in this standard.

**Remedy's Effect On Existing Equipment** [ If more space is needed, provide an additional file, preferably as plain text. ]

None.
