

## IEEE 802.17 Maintenance Request 0120

MR number 0120 Classification Technical Date received 9/15/2006 **Reserved for official 802.17 use**

Standard 802.17-2004 Page 329 Subclause 11.6.3.4 Figure \_\_\_\_\_ Table 11.13

Surname Juźwiak Given Name Piotr

**Perceived Problem** [ If more space is needed, please provide an additional file, preferably as plain text. ]

EntryInQueue(queue) can return values TRUE or FALSE (definition in 7.2.3). Definition of NULL constant excludes "confused with a valid value" (7.2.1), so condition "EntryInQueue(Q\_RX\_TP\_PARSE) != NULL" (Table 11.13, Row 3) is a tautology.

**Proposed Remedy** [ If more space is needed, please provide an additional file, preferably as plain text. ]

Change wrong notation:

"EntryInQueue(Q\_RX\_TP\_PARSE) != NULL"

to:

"EntryInQueue(Q\_RX\_TP\_PARSE) != FALSE"

**Rationale For Remedy** [ If more space is needed, please provide an additional file, preferably as plain text. ]

Now it's a real condition, not a tautology in the meaning of standards definitions.

**Remedy's Effect On Existing Equipment** [ If more space is needed, provide an additional file, preferably as plain text. ]

None.

**When you have completed this form, please mail it to STDS-802-17-MR @ listserv.ieee.org.**
