## Call for comments

Further to the March 2021 IEEE SA Standards Board Patent Committee (PatCom) meeting 'Review of the IEEE SA Patent Policy' agenda item, and at the direction of the IEEE SA Board of Governors (BOG), PatCom seeks public comments to be compiled and provided to the BOG regarding the Pros and Cons of the following three options:

- i. No change to the text of the 2015 Patent Policy;
- ii. Remove (a) all of the Patent Policy provisions regarding Prohibitive Orders and/or (b) the optional factors included in the definition of Reasonable Rate;
- iii. Offer more options than before by:
  - Allowing an LOA filer the ability to choose whether it may seek or not seek Prohibitive Orders in accordance with the current wording of the Patent Policy; and
  - Clarifying the optionality of the factors included in the definition of Reasonable Rate.

For each of the three options, PatCom also seeks public comments regarding the ongoing use of the Custom LOA form <a href="https://mentor.ieee.org/myproject/Public/mytools/mob/loa-13June2019limited-statement.pdf">https://mentor.ieee.org/myproject/Public/mytools/mob/loa-13June2019limited-statement.pdf</a>.

Responses to this Call for Comments shall be submitted by completing the spreadsheet accessible at <a href="https://grouper.ieee.org/groups/pp-dialog/call\_for\_comments/PatCom\_call\_for\_comments.xlsx">https://grouper.ieee.org/groups/pp-dialog/call\_for\_comments/PatCom\_call\_for\_comments.xlsx</a> and submitting the spreadsheet to <a href="mailto:cpp-dialog@ieee.org">cpp-dialog@ieee.org</a>. Any other attachments will not be considered. All responses submitted to <a href="mailto:cpp-dialog@ieee.org">cpp-dialog@ieee.org</a>> will be considered public and the comment compilation report provided to the BOG will also be made public.
