**Presenter:** Bob Voss, Chair Pro-Tem

The Chair Pro-Tem confirmed with the working group Chair that confirmation of the Chair appointment would be scheduled for the meeting during the IEEE 802.3 interim meeting series in May 2026. Until then he would be presiding as Chair Pro-Tem.

**Approval of Agenda:** The Chair asked whether there were any comments, additions, or corrections to the agenda, and there were none. He announced that the agenda was approved as shown. **(7:05 AM)**

The Chair continued review of the agenda presentation.

The Chair noted that there should be no recording or photography without permission.

The Chair asked if anyone was attending from the press including those who would run a public blog on this meeting – there were no indications from the group. **(07:08AM)**

The Chair then continued review of the presentation, reviewing decorum, goals for the meeting, information for the reflector, private area, and ground rules.

**Private Area:** The Chair indicated that there was no private area set up yet, as there were no documents requiring its use at this time.

The Chair discussed that this being an ad hoc meeting there would be no motions other than procedural for the ad hoc (e.g., agenda approval, adjournment).

The Chair reminded the group that since this was an ad hoc meeting attendance did not count toward 802.3 voting membership.

**Attendance,** the Chair advised the group that attendance would be taken from the Webex log. He then reminded attendees that they should show their employer & affiliation, and how to set these to make them correct. Assistance was offered in case anyone could not rename themselves.

**IEEE SA Patent Policy,** The Chair then read the pre-par patent policy slide. **(7:15 am)**.

## **Other IEEE Policies**

He reviewed the slides on the IEEE SA copyright, Participant behavior (ethics), IEEE individual participation, and fair and equitable consideration policies. He then read the standards association

meeting decorum slide (page 20) and reviewed the ethics reporting line slide. (7:24 am). There were no questions.

### **Introduction to the Study Group**

The Chair pro-tem then reviewed the process that an 802.3 project would follow to produce a draft standard and where the study group was in the process. He reviewed the chartering motion for the study group.
