At the time of RevCom submittal please remember to supply a separate electronic file for each graphic in TIFF, GIF, EPS, or WMF formats. At this same time, please be sure to supply a list of names and addresses for all members of the working group. This will ensure that each member gets a complimentary copy of the standard upon publication.

*SuggestedRemedy*

*Response*                                      *Response Status*    **C**

ACCEPT.

All figures are in FrameMaker. The list of names and addresses will be supplied.

There is currently no Introduction in the front matter of this draft. As per the IEEE Style manual, "An introduction shall be supplied by the working group, giving the history of the standard, a description of its purpose, and, if the standard is a revision, an explanation of the principal changes from the previous edition. An introduction in not a part of a proposed standard; therefore, the following statement shall appear above the text:

(This introduction is not part of IEEE Pxxx, title.)

At a minimum, a roster of the officers and members of the working groupthat developed the document shall be provided by the working group.

*SuggestedRemedy*

*Response*                                      *Response Status*    **C**

ACCEPT.

The front matter is not part of the standard and hence is not balloted.

The content of the front matter for IEEE 802 Standards was discussed and is being modified at the request of IEEE staff. We will provide front matter consistent with the decisions made at the IEEE 802 July 2003 plenary meeting to the publications editor.
