# Copper track report

---

- 28 participants attended the copper track
- Heard 4 presentations
  - Considerations for SFF – 8470 (CX4) connector & copper concepts for 802.3ba
  - SFF-8470 considered for 40GBASE-CR4 and 100GBASE-CR10
  - IEEE 802.3ba copper cable assembly proposal
    - Considerations for the use of KR signaling, cable characteristics, and QSFP connector option
  - 40/100G copper feasibility

# Summary

---

- Discussed signaling, cable characteristics, connector options, and feasibility of copper cable assembly solutions for 40 and 100G
