

# Chief Editor's Closing Report

---

Ilango Ganga, Intel  
Editor-in-Chief, IEEE P802.3ba Task Force

Sep 18, 2008

# Status

---

- Achieved top 2 meeting goals
  - Completed Review of Draft 0.9
  - Adopted a baseline for 40G LR PMD and reviewed the corresponding text
- Comments posted:  
[http://iee802.org/3/ba/public/sep08/D0\\_9\\_Comments\\_0908.pdf](http://iee802.org/3/ba/public/sep08/D0_9_Comments_0908.pdf)

# Items needing contributions (1)

---

- Common to logic and PMD clauses
  - Skew and Delay constraints (PCS/PMA/PMD)
- Test procedures for various clauses
  - Test points definition
  - Test fixtures
  - Test patterns
  - Jitter specification
  - Transmit eye mask
- Channel characteristics
  - Finalize channel characteristics for copper medium, test channels, XLAUI/CAUI, optics polarization mode dispersion

# Items needing contributions (2)

---

- List of major open items logic clauses
  - Finalize the test pattern strategy
  - PCS state machine changes for working with FEC
- Management
  - Strategy to address Multiple PMA instances, atomic PMAs, and PMAs separated from PMDs
  - Management objects (Clause 30)
