

# Initial Project

GDMO = Guidelines for Definition of Managed Objects  
SMIv2 = Structure of Management Information, version 2  
IETF = Internet Engineering Task Force  
RFC = Request For Comments  
PDF = Portable Document Format

# Revision Plan

GDMO = Guidelines for Definition of Managed Objects  
SMIV2 = Structure of Management Information, version 2  
IETF = Internet Engineering Task Force  
RFC = Request For Comments  
PDF = Portable Document Format

# Project Objectives

- Revise IEEE Std 802.3.1-2011 → P802.3.1 Rev
- Update the GDMO and SMIv2 MIB module definitions to reflect the changes from:
  - 802.3at (PoE+)
  - 802.3av (10GE PON)
  - 802.3az (EEE)
  - 802.3ba (40G/100G)
  - 802.3bc (LLDP extensions)
  - 802.3bd (PFC)
  - 802.3bf (Time Sync)
  - 802.3bg (40G Serial)
- Produce draft standard plus machine-readable extracts of SMIv2 modules
