

Status of Cat 8 in TIA

Wayne Larsen CommScope

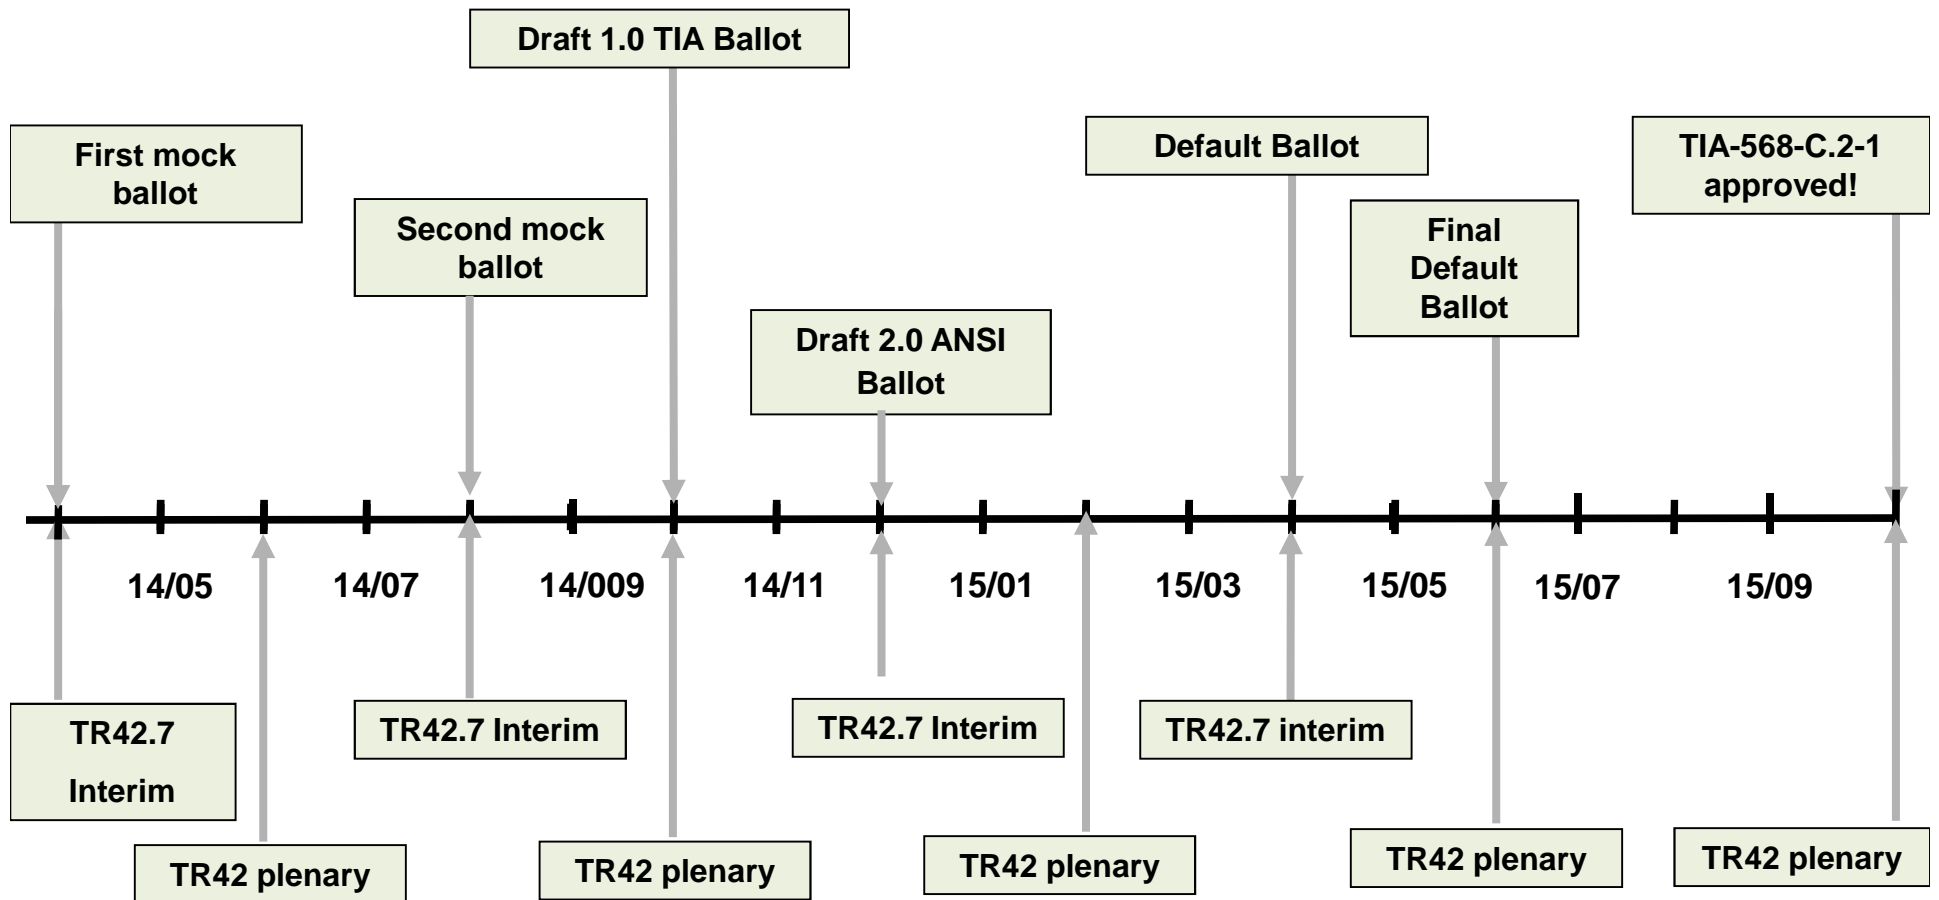

Summary

- Completed comment resolution of 1st mock ballot June 9, 2014
- Draft including the resolved comments has been posted in the IEEE private area
- The high frequency plateau of the permanent link return loss was changed (This was the only substantial limit change)
- There were no changes to the channel limits
- Publication is expected by the end of 2015, per our target schedule

Change to Permanent Link Return Loss in TIA cat 8 June 9, 2014

Timeline for ANSI/TIA-568-C.2-1

Thank You.
