

Comments on IEEE 802.3bq D0.8 from Alan Flatman

Date: 05-09-14	Document: 802.3bq D0.8
----------------	------------------------

No.	Page	Clause/ Subclause/ Figure/Table	Line(s)	Type of comment	Comments	Proposed change	Proposed Resolution
AF01	168	98.7	3	TR	States that 40GBASE-T is designed to operate over Class I cabling – but we have not made this decision in 802.3bq. We have only adopted IL and RL requirements specified by Class I cabling.	Replace “ISO/IEC 11801 Class I” with “TBD”	
AF02	168	98.7	12+13	ER	Editor’s note is premature.	Delete editor’s note	
AF03	168	98.7.1	17	TR	See comment AF01	Replace “ISO/IEC 11801 Class I” with “TBD”	
AF04	168	98.7.1	23	TR	See comment AF01	Replace “ISO/IEC 11801 Class I” with “TBD”	
AF05	168	98.7.1	24-26	ER	Editor’s note is premature.	Delete editor’s note	
AF06	168	98.7.2	30	TR	See comment AF01	Replace “Class I” with “TBD cabling”	
AF07	168	Table 98-17	37	TR	See comment AF01	Replace table content with “TBD”	
AF08	172	98.7.2.4.4	35-40	TR	Equation 98-22 wrong & references 100m cable	correct	
AF09	176	98.8		TR	802.3bq has not chosen an MDI connector as yet.	This entire subclause should be marked “TBD”
