

Cabling ad hoc report

Wayne Larsen
CommScope

Cabling ad hoc report

- Several SDOs are meeting to address this
 - IEEE 4PPOE cabling ad hoc – 1 meeting since March
 - TIA TSB-184 task group – started project to revise TSB-184
 - ISO remote powering ad hoc – Holding teleconferences in preparation of edition 2 of TR-29125
 - Cenelec – TC215 is developing a TR

Cabling ad hoc report

- Areas of investigation
 - High elevation – Experiment being done in TIA, no results yet
 - Cable bundle sizes at higher current levels – One contribution was received, needs to be validated
 - Patch cords – study is planned to determine bundle sizes for smaller diameter patch cords
 - Installation of bundles in trays and conduits – One contribution made to ISO, others expected

Cabling ad hoc report

- Propose next meeting 6/26/14 in the afternoon
