

Meeting minutes 802.3bu 15 July 2014

09:00: Starting the meeting, Introduction, Presenting the goals of the meeting.

-Motion to approve agenda. Yes, all by acclamation. Moved by Yair Darshan, 2nd by Jeff Heath

-Motion to approve May minutes Yes, all by acclamation. Moved by Phil Brownlee and 2nd Andy Gardner

- Patent policy was reviewed and read to the room. -Call for potentially Essential Patents. No responses. -Next meeting on Ottawa, Ontario Canada

09:40: Presentations. Andy Gardner

Q&A.

Break:10:15. Reconvene at 10:40.

XIAOFENG WANG: Reported the RTPGE considered our questions and their response for next meeting or before next meeting.

Question to RTPGE/1TPCE.

Can you accept a Troop value of 50nsec to accommodate practical low physical volume coupled inductors?

If no, why not ?

Is it possible to choose a Tdroop spec that is uniform between 1000bt-t1 AND 1tpce TO ENABLE RATE AUTO-NEGOTIATION WITH POWERED LINKS?

Is higher value of Tdroop worth the additional cost to PoDL coupling inductors?

Yair to generate for next meeting a draft of table of content of system requirements with some content to illustrate the issues and start discussions. The format is a format of a specification (base line text)

- Attending interim of podl in September Ottawa Yes: 18, no 1, not sure 11
- Generating presentations for interim of podl in September Ottawa : Yes 2, Maybe 3.

Motion to adjourn. Done. 11:35 AM.
