Remaining Work

- For the moment, all items are listed for Mandatory Support
 - It seems this won't change for most of the items
 - Please comment on any that are actually Support Optional
- I understand PICS comments vary in style among standards
 - I erred on the wordier side
 - Some of the comments could be shortened if desired
- Some comments remain unfinished
 - Variables that do not define True/False are TBD
 - State machine to change and may affect some items
