

Closing Report

IEEE P802.3ca 100G-EPON

Curtis Knittle
CableLabs
New Orleans, LA
May 23-25, 2017

Decisions/Contributions to make upcoming meetings

❑ Upcoming meetings:

- Bi-weekly meetings: June 8, June 22, July 6
- F2F meeting in Berlin: week of July 10

❑ Actions:

- **MPCP/MPRS**
 - Duane: Provide additional details on Forced Report (Berlin)
- **Wavelength plan**
 - Marek: analyze narrowing down the first channel from 20 nm to something smaller (June 8)
 - Glen: Follow up on Glen's suggestion for 2 wavelength plans (greenfield, brownfield)(John Johnson, Ed Harstead) (June 22)
 - Frank: Analyze suitability of wavelengths longer than 1330 nm for DML – advance Plan Z (June 22)
- **SOA preamp/dynamic range**
 - Dekun: Solution proposal for cross-gain modulation problem from liudekun_3ca_1_0517.pdf (Berlin)
 - Earl: Contribution expected (June 22)
 - Hanhyub: Contribution expected (June 22/Berlin)
- **Line coding**
- **FEC information**
 - Mark: Address concerns voiced during F2F meeting (June 22)
- **SERDES/CDR**
 - Frank: facilitate contribution on CDR and channel model (Berlin)

Thank you!
