IEEE P802.3cg 10 Mb/s Single Pair
Ethernet Task Force Ad Hoc

George Zimmerman
CME Consulting, Inc.
20 Dec 2017

Follow up

- Geoff Thompson stated he intended to locate a copy of the LOA for 4B/5B coding and share it with the TF.
 - The referenced LOA and a clarification are now posted at:
 - http://standards.ieee.org/about/sasb/patcom/loa-802_3-hyundai5Jun1995.pdf
 - http://standards.ieee.org/about/sasb/patcom/loa-802_3-hyundai12Nov1998.pdf

Process for Geneva

- Meeting logistics: Mon. 8am – Wed. 6pm
 - High-level agenda
 - Open Mon. with 10BP Study Group business
 - Presentations & proposals for PAR/CSD/Objective modifications
 - Recess the study group and do 802.3cg business
 - Some time Monday
 - Comment resolution, presentations
 - Review input from study group as it relates to 802.3cg
 - Close Wed. going back to study group business

Task Force Review

- Draft 1.0 is released for review in the private area
- Review is based on submitted comments on the draft
 - Identify text effected, succinctly state issue, and give change to the text. (not reasons)
- You may use either the filemaker or the spreadsheet tool
 - Personally, I recommend the spreadsheet tool, because I believe it will result in fewer questions and ‘misfired’ comments
 - PLEASE DO NOT SUBMIT MANUAL COMMENTS
- If you need a presentation to describe and address an issue, please reference it in the comment (even if it isn’t ready yet)

Thank You!
