Comment distribution

Comment history

Meeting goals

Continue to resolve comments against Draft 2.1

- Comment resolution agenda in later slides
- Any presentations associated with comments will be reviewed during comment resolution
- TRs and ERs require signoff as to whether commenter is satisfied (but there aren't any)

As there are only 10 comments and 3 have been withdrawn, all of the comments will be resolved individually.

Comment resolution

- The comments on the following slides will be resolved in sessions of the P802.3cn Task Force starting with the 20 June Ad Hoc call and to be completed in the Vienna meeting starting on 16 July.
- The order in which the comments are reviewed and the schedule are **subject to change**
- Comments bracketed together with [] cover a common topic
 - Where a comment number is coloured blue it contains the proposed response for the group of comments
- Comments with underline (e.g., 300) have associated hyperlinked presentations.

Ad Hoc call comment resolution

- The comment resolution process for Ad Hoc calls was the same as that for face-to-face meetings with the exception that if it had become necessary to conduct a straw poll due to lack of consensus on the response, resolution of the comment would be deferred to the face-to-face meeting.
- Comments that have been resolved in the previous Ad Hoc call on 20 June are marked with a green background on the following slides (e.g., 300)

General comments (7 comments)

- 10
- [4, 5, 6]
- [7, 8, 9]
