Meeting Schedule

- May 6th
 - See page 13 for details.
- May 18th
 - See page 14 for details.
 - Any requests to remove comments from the bucket must be submitted by end of day AOE.
- May 27th
- Additional future dates if needed to be announced.

Comment Resolution Process

- Resolve comments against Draft 1.0
 - Any presentations associated with comments will be reviewed during comment resolution session.
 - TRs and ERs do not require signoff as to whether commenter is satisfied
- If there is no disagreement on the final proposed response the comment will be closed as proposed.
- If more than 2 people disagree, a straw poll on the area of concern will be taken and the majority position will decide the final response.
 - If the straw poll contains more than 2 choices, the choice with the lowest number of supporters will be removed. This process will continue until there are only 2 choices.

Comment Resolution Process

- The order in which the comments are reviewed on a given call are subject to change
- Comments bracketed together with [] cover a common topic
- Where a comment number is underlined (e.g., 59) it contains the proposed response for the group of comments
- Comments colored blue have associated hyperlinked presentations

Comment Resolution Process (.3ck,.3cu,.3ct,.3cw)

- **Baseline Terminology**
 - “Open” comments – comments that Task Force have not agreed upon a remedy
 - “Closed” comments – comments that Task Force have agreed upon a remedy
 - “Final” comments – Task Force has approved motion to adopt the responses to the closed comments
- **Post updated comment database after each meeting**
 - Allow individuals (other than commenter) two business days (AoE) to request on the reflector reconsideration of a “Closed” comment from the prior meeting
 - Individual needs to be present at next meeting to address
 - Normal procedures within the group will apply to determine if comment will be re-opened
- **After all comments closed – normal procedures to adopt responses and generate next draft will be followed**
 - Comments can not be re-opened after meeting where responses are adopted by TF

Note about Comment Resolutions Going Forward

- Consensus building will be key
 - Rule #1 – Use the Reflector
 - Rule #2 – See Rule #1
- Reference: IEEE SA Balloting and Comment Resolution Process Guidelines (<https://standards.ieee.org/content/dam/ieee-standards/standards/web/governance/revcom/guidelines.pdf>)
 - Multiple reasons possible for rejecting comment given –
 - a statement that the CRG could not reach consensus on the changes necessary to address the comment;
