Subject: Liaison: Status of IEEE P802.3cx Task Force

Approval: **Agreed to at IEEE 802.3 [plenary | interim] meeting, [where], [date]**

Dear Mr. Ruffini,

The IEEE P802.3cx Improved PTP Timestamping Accuracy Task Force work has completed Task Force review and progressed to the IEEE 802.3 Working Group ballot phase. Current draft D2.1 is attached for your information. It addresses the identified aspects of some recently adopted Ethernet PHYs that could potentially limit the accuracy of transporting PTP timestamps, which were listed in a previous liaison, and provides an informative appendix to describe the potential limitations and solutions.

Links to the project scope, objectives and adopted timeline can be found at <https://www.ieee802.org/3/cx/index.html>. Note that the timeline is subject to updates.

Sincerely,

¹ This document solely represents the views of the IEEE 802.3 Working Group, and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

David Law

Chair, IEEE 802.3 Ethernet Working Group
