

Straw poll and motion

Yuji Watanabe , AGC Inc.

Straw poll

I would like to propose a straw poll as follows;

“Do you think it is acceptable to keep two modulation methods in 802.3AU?”

- **Yes:**
- **No:**
- **Need more information:**
- **Abstain**

Please select one option

If keeping two modulation methods in 802.3AU is not supported by majority of TF members (if positive vote's share is less than 50% of attendees), I would like to propose a motion;

Move revision of 802.3cz objectives to remove 50Gbps PHY
