Objectives for this meeting

- Respond to all comments against D3.1
- Generate D3.2 for second SA Ballot recirculation

Approach to comment resolution (review)

The following approach will be utilized for resolving comments…

❖ Review the proposed response

➢ Discuss and refine as needed and attempt to close without objection using **direction** straw polls, as necessary.

➢ If no more than two objections (including commenter) to proposed response then consider it to be consensus and close comment.

➢ If more than two objections then use **decision** straw poll(s) to move forward.

❖ Use of a **direction** straw poll to determine a direction

➢ Use the result of the direction straw poll(s) to determine consensus, refine the proposed response, or to craft a decision straw poll.

❖ Use of a **decision** straw poll to make a final decision.

➢ The decision straw poll winner is the option that has more than 50% support.

➢ Close the comment based on the winner of the decision straw poll(s).

❖ The editorial team may provide presentations as needed to aid in the resolution of comments.

Thanks!
