Introduction

- This slide package was assembled by the 802.3dj editorial team to provide background and detailed resolutions to aid in comment resolution.
Connector Labelling
Connector Labeling
Comments  590, 592, 587, 577, 589, 591

The remaining comments are the same in requesting the addition of the Tx and Rx labels for the remaining DR2-x connectors in clauses 180, 181 and 182.
The current figures do not include Tx and Tx labels.

Figure 180-7—400GBASE-DR2 optical lane assignments
Per motion #2 at the May interim, the task force adopted an OLT baseline per ghiasi_3dj_04a_2405 pages 3 and 4. While the adopted baseline does not require connector labelling, an earlier presentation ghasis_3dj_1a_2405 page 13, states that connector labelling is a requirement for the support of OLT.

Editor's recommendation:

Add connector labeling to all DR2-x connectors in clauses 180, 181 and 182 as suggested.
