ALL TIMES ARE IN PDT.

Ms. Wienckowski turned to presentation [agenda_3dm_01_070926.pdf](https://www.ieee802.org/3/dm/public/070726/agenda_3dm_01_070926.pdf) and reviewed the agenda for the meeting.

Presentation: https://www.ieee802.org/3/dm/public/070726/agenda_3dm_01_070926.pdf

Presenter: Natalie Wienckowski, Chair

Approval of Agenda: The chair asked whether there were additions or corrections to the agenda, shown on slide 2 of the presentation [agenda_3dm_01_070926.pdf](https://www.ieee802.org/3/dm/public/070726/agenda_3dm_01_070926.pdf). She then asked if there were any objections to approving the agenda.

There were none.

(6:35 AM)

(NOTE – the presentation “agenda_3dm_01_070926.pdf” or updates will be referred to as “the agenda deck” in these minutes.)

She announced the agenda on slide 2 was considered approved.

The Chair then resumed the review of the agenda deck

Ms. Wienckowski noted that there should be no recording or photography without permission.

Ms. Wienckowski asked if anyone was attending from the press including those who would run a public blog on this meeting – there were no indications from the group. **(6:36 AM)**

The chair discussed decorum and processes for joining the queue using the conference tool.

The chair discussed the goals of the meeting, which were resolution of comments on the task force review draft.

Ms. Wienckowski then continued review of the presentation, reviewing information for the reflector, private area, and ground rules.

The Chair announced that under 802.3 rules, only working group voters may vote on motions, and that anyone in the meeting could vote in straw polls. In the agenda deck she provided a link to the IEEE 802.3 Ethernet Working Group Operations Manual for further information. She further indicated that she planned to defer resolution for comments that did not have consensus at this meeting to a future session.

Attendance

The chair reminded the group that attendance would be taken from Webex, and she then reminded attendees that they should show their employer & affiliation, and how to set these to make them correct.

IEEE Structure, Policies

Ms. Wienckowski continued review of the IEEE SA structure, where to find the bylaws, policies & procedures documents, and operations manuals which hierarchically govern IEEE SA, IEEE 802 LMSC, and IEEE 802.3 activities.

She also asked whether anyone in the room or online had not seen the various policy slides. There were no responses. She then proceeded to show the slides and read through them.

IEEE SA Patent Policy, Ms. Wienckowski reviewed the IEEE SA Patent Policy (slides 13-17 in the agenda deck). During this, she read aloud the IEEE SA patent policy from the agenda deck and made the call for patents on the slide labeled “Ways to Inform IEEE” (slide 15) **(6:41AM)**.

There was no response to the call for patents at **6:41 AM**.

She then showed and read aloud slide 3 of the patent policy and showed slide 4 of the patent policy.

Other IEEE Policies

Ms. Wienckowski showed and read aloud the slides on the IEEE SA copyright, Participant behavior (ethics), IEEE individual participation, the fair and equitable consideration policies, the decorum policy, and the IEEE ethics contact information in the agenda deck (slides 18-25). **(6:45 AM)**

There were no questions.

Ms. Wienckowski reviewed the standards development process for IEEE 802.3 and where this Task Force is in that process.

LIAISONS

The chair noted that the Task Force had received no liaisons.

Task Force Documents

The chair noted that the Task Force objectives had been updated by the Working Group at the March plenary.

There was no discussion.

Authors: Natalie Wienckowski (IVN Solutions/Ethernova & Bosch), Val Maguire (Copperopolis//CME Consulting, Microchip, and NXP)

Discussion: The editors reviewed the status of the initial working group ballot comments received, including that 494 comments had been received on time, and two groups of late comments (25 and 2) had been received after the ballot close.

MOTION #2

Move to consider all 27 late comments received, including 25 received prior to the posting of the proposed responses on June 25th and 2 received between June 25 and July 6, 2026.

Motion passes by voice without object (Technical >= 75%)

EZ comments:

During the presentation, the Chief Editor notified the group that the comment responses to comments marked with the topic "EZ" were posted at

https://www.ieee802.org/3/dm/comments/D2p0/IEEE_P8023dm_D2p0_comments_proposed_responses_EZ.pdf The Chair had previously (by reflector message

<https://www.ieee802.org/3/ISAAC/email/msg00739.html>) requested that participants review the proposed responses and notify her of any comments they wish to be discussed so that they may be pulled out of the "EZ bucket" and excepted from the motion. She announced she had received requests to exclude a number of comments via the reflector and asked whether there were any additional exclusions. She then displayed the comments to be excluded from the EZ bucket. There were no responses.

Based on this, she considered the following motion:

MOTION #3:
