

Meeting Minutes: IEEE P802.3dm Asymmetrical Electrical Automotive Ethernet Task Force

September 8, 2026
Electronic Interim

Prepared by George Zimmerman

See Appendix A for Attendance

IEEE P802.3dm Task Force meeting convened at **6:34 AM PDT, Tuesday, September 8, 2026**, by Natalie Wienckowski, IEEE P802.3dm Task Force Chair.

ALL TIMES ARE IN PDT.

Ms. Wienckowski turned to presentation [agenda_3dm_01_090826.pdf](https://www.ieee802.org/3/dm/public/090826/agenda_3dm_01_090826.pdf) and reviewed the agenda for the meeting.

Presentation: https://www.ieee802.org/3/dm/public/090826/agenda_3dm_01_090826.pdf

Presenter: Natalie Wienckowski, Chair

Approval of Agenda: The chair asked whether there were additions or corrections to the agenda, shown on slide 2 of the presentation [agenda_3dm_01_090826.pdf](https://www.ieee802.org/3/dm/public/090826/agenda_3dm_01_090826.pdf). She then asked if there were any objections to approving the agenda.

There were none.

(6:36 AM)

(NOTE – the presentation “agenda_3dm_01_090826.pdf” or updates will be referred to as “the agenda deck” in these minutes.)

She announced the agenda on slide 2 was considered approved.

The Chair then resumed the review of the agenda deck

Ms. Wienckowski noted that there should be no recording or photography without permission.

Ms. Wienckowski asked if anyone was attending from the press including those who would run a public blog on this meeting – there were no indications from the group. **(6:37 AM)**

The chair discussed decorum and processes for joining the queue using the conference tool.

The chair discussed the goals of the meeting, which were resolution of comments on the task force review draft.

Ms. Wienckowski then continued review of the presentation, reviewing information for the reflector, private area, and ground rules.

The Chair announced that under 802.3 rules, only working group voters may vote on motions, and that anyone in the meeting could vote in straw polls. In the agenda deck she provided a link to the IEEE 802.3 Ethernet Working Group Operations Manual for further information. She further indicated that she planned to defer resolution for comments that did not have consensus at this meeting to a future session.

Attendance

The chair reminded the group that attendance would be taken from Webex, and she then reminded attendees that they should show their employer & affiliation, and how to set these to make them correct.

IEEE Structure, Policies

Ms. Wienckowski continued review of the IEEE SA structure, where to find the bylaws, policies & procedures documents, and operations manuals which hierarchically govern IEEE SA, IEEE 802 LMSC, and IEEE 802.3 activities.

She also asked whether anyone in the room or online had not seen the various policy slides. There were no responses. She then proceeded to show the slides and read through them.

IEEE SA Patent Policy, Ms. Wienckowski reviewed the IEEE SA Patent Policy (slides 13-17 in the agenda deck). During this, she read aloud the IEEE SA patent policy from the agenda deck and made the call for patents on the slide labeled "Ways to Inform IEEE" (slide 15) **(6:41AM)**.

There was no response to the call for patents at **6:41 AM**.

She then showed and read aloud slide 3 of the patent policy and showed slide 4 of the patent policy.

Other IEEE Policies

Ms. Wienckowski showed and read aloud the slides on the IEEE SA copyright, Participant behavior (ethics), IEEE individual participation, the fair and equitable consideration policies, the decorum policy, and the IEEE ethics contact information in the agenda deck (slides 18-25). **(6:45 AM)**

There were no questions.

Ms. Wienckowski reviewed the standards development process for IEEE 802.3 and where this Task Force is in that process.

Ms. Wienckowski announced that the SA ballot pool was being formed and was open, and discussed how members might join the ballot pool if they wished.

LIAISONS

The chair noted that the Task Force had received no liaisons.

Task Force Documents

The chair noted that the Task Force objectives had been updated by the Working Group at the March plenary.

There was no discussion.

COMMENT RESOLUTION

The chair then turned to the editor's opening report: **(6:53 AM)**

Title: IEEE P802.3dm D2.0 Opening Editor's Report

URL: https://www.ieee802.org/3/dm/public/090826/wienckowski_3dm_01_090826.pdf

Authors: Natalie Wienckowski (IVN Solutions/Ethernovia & Bosch), Val Maguire (Copperopolis//CME Consulting, Microchip, and NXP)

Discussion: The editors reviewed the status of the initial working group ballot comments received, including that 222 comments had been received on time, and 23 late comments which had been received after the ballot close.

MOTION #1

Move to consider all 23 late comments received.

M: Scott Muma

S: Max Turner

Motion passes by voice without objection (Procedural > 50%)

EZ comments:

During the presentation, the Chief Editor notified the group that the comment responses to comments marked with the topic “EZ”, “EZ-R” (required comments in the EZ bucket), and “EZ – late” (late comments in the EZ bucket) were posted. The Chair had previously (by reflector message <https://www.ieee802.org/3/ISAAC/email/msg00822.html>) requested that participants review the proposed responses and notify her of any comments they wish to be discussed so that they may be pulled out of the “EZ bucket” and excepted from the motion. She announced she had received requests to exclude a number of comments and to withdraw 3 comments. She notified the group that the comments requested be pulled from the EZ bucket had been removed from the EZ bucket and a new file generated on 090526, found at https://www.ieee802.org/3/dm/comments/D2p1/802.3dm_d2p1_comments_proposed_responses_EZ_090526.pdf She then displayed the comments to be excluded from the EZ bucket. There were no responses. Based on this, she considered the following motion:

MOTION #2:

Move to accept all proposed “EZ_90526” bucket comment resolutions sorted by clause/subclause

M: Ragnar Jonsson

S: Valerie Maguire

MOTION PASSES BY UNANIMOUS CONSENT (Technical >= 75%).

Comment Resolution:

The chair began a discussion of individual comment resolution at **7:01 AM**.

Ms. Wienckowski displayed the comment resolution database and reviewed comments that she thought people should think about prior to the meeting in Lisbon for discussion.

This included comment 103 and the comments marked TFTD (Task Force to Discuss).

The chair completed this review and then recessed the meeting for a break.

At 8:45AM the chair recessed the meeting for a 10 minute break

At 8:55AM the meeting reconvened

The chair then began resolution of comments with the EZ-pull group. Comment resolution is captured in the comment database.

Comment response status as of the end of the September 8 meeting session were posted at:

All comments as a spreadsheet:

https://www.ieee802.org/3/dm/comments/D2p1/IEEE_P8023dm_D2p1_comments_090826.xlsx

All comments as a pdf:

https://www.ieee802.org/3/dm/comments/D2p1/IEEE_P8023dm_D2p1_comments_090826.pdf

At 10:21AM comment resolution stopped, and the chair reviewed the upcoming meetings during the IEEE 802.3 interim session in Lisbon (Monday Sept 14 – Thursday Sept 17), with 802.3dm meeting Tuesday & Wednesday PM, and Thursday AM.

The chair announced that PICS comments were published in a bucket and urged participants to review the bucketed comments and indicate any they wished to have pulled for individual discussion.

Due to the short time remaining, the chair announced that having exhausted the agenda the meeting was adjourned.

The meeting adjourned at **10:26AM PDT**.

Appendix A: Attendees at the IEEE P802.3dm Asymmetrical Electrical Automotive Ethernet Task Force Meeting, September 8, 2026 (taken from Webex)

First Name	Last Name	Affiliation
Ramanjit	Ahuja	Onsemi
Shaoan	Dai	Infineon
Daniel	Estrakh	Valens
Steve	Gorshe	Microchip
Jodi	Haasz	IEEE SA
TJ	Houck	Infineon
Ragnar	Jonsson	Infineon
DoKyun	Kim	LGE
William	Lo	Axonne
Rich	Long	TE Connectivity
Chao	Lu	BMW Group
Valerie	Maguire	Copperopolis aff'l w/ CME Consulting, Microchip, and NXP
Scott	Muma	Microchip
Alireza	Razavi	Eliyan
Hossein	Sedarat	Ethernovia
Max	Turner	Ethernovia
Peter	van Dyck	Infineon
Frank, S.-S.	Wang	Realtek
Natalie	Wienckowski	IVN Solutions; Ethernovia, Bosch
George	Zimmerman	CME Consulting/ADI, Cisco, Eliyan, Infineon, OnSemi, Sony
