Chen, Chi-Hua

Chunghwa Telecom Laboratories

Comment Type	E	Comment Status	R
--------------	---	----------------	---

The title of Clause 166 in IEEE Draft 802.3-2022/Cor 2/D3.1 is specified as "166. Physical Coding Sublayer (PCS), Physical Medium Attachment (PMA) sublayer, and Physical Medium Dependent (PMD), types 2.5GBASE-AU, 5GBASE-AU, 10GBASE-AU, 25GBASE-AU, and 50GBASE-AU."

However, the title of Clause 166 in IEEE Std 802.3cz-2023 is specified as "166. Physical Coding Sublayer (PCS), Physical Medium Attachment (PMA) sublayer, and Physical Medium Dependent (PMD) sublayer, types 2.5GBASE-AU, 5GBASE-AU, 10GBASE-AU, 25GBASE-AU, and 50GBASE-AU."

Since IEEE Draft 802.3-2022/Cor 2/D3.1 is based on IEEE Std 802.3cz-2023, the title of Clause 166 should be consistent with that in IEEE Std 802.3cz-2023. Therefore, "Physical Medium Dependent (PMD)" should be revised to "Physical Medium Dependent (PMD) sublayer".

Suggested Remedy

Since IEEE Draft 802.3-2022/Cor 2/D3.1 is based on IEEE Std 802.3cz-2023, the title of Clause 166 should be consistent with that in IEEE Std 802.3cz-2023. Therefore, "Physical Medium Dependent (PMD)" should be revised to "Physical Medium Dependent (PMD) sublayer".
