Optics Sub Task Force Report

- The work of the sub task force is on schedule and progressing well.
- A competent editorial team is now in place.
- Total 211 comments received against Clauses 58, 59 and 60 of D1.0. Some of them are key topics for further progress.

Key topics for this meeting

- Most of the time to be spent on resolving comments.
- 58: burst mode parameters, link budget, system implications.
- 59: Spectral specs, OMA/ER, test patterns, jitter methodology.
- 60: Baseline wander, mask, link distance, signal detect.
