4  |                                     |
5  | DATE: 3/14/19                      |
6  | NAME: Mark Laubach                  |
7  | COMPANY/AFFILIATION: Broadcom       |
8  | E-MAIL: mark.laubach@broadcom.com   |
9  |                                     |
10 | REQUESTED REVISION:                 |
11 |   STANDARD: 802.3-2018              |
12 |   CLAUSE NUMBER: 4A                 |
13 |   CLAUSE TITLE: 4A.3.2             |
14 |                                     |
15 | PROPOSED REVISION TEXT:             |
16 |                                     |
17 | Editorial: remove "<XREFX>" from the cross reference text in "The state |
18 | machines in 4A.3.2 follow the conventions in <XREFX>21.5."             |
19 |                                     |
20 |                                     |
21 |                                     |
22 |                                     |
23 |                                     |
24 | RATIONALE FOR REVISION:             |
25 |                                     |
26 | I am guessing that "<XREFX>" is a holdover from when the working cross |
27 | reference was inserted and likely missed being removed.                 |
28 |                                     |
29 |                                     |
30 |                                     |
31 |                                     |
32 |                                     |
33 | IMPACT ON EXISTING NETWORKS:         |
34 |                                     |
35 | None.                                |
36 |                                     |
37 |                                     |
38 |                                     |
39 |                                     |
