9  |                                     |
10 | REQUESTED REVISION:                 |
11 |   STANDARD:802.3cd-2018             |
12 |   CLAUSE NUMBER:138.5.4            |
13 |   CLAUSE TITLE:PMD global signal detect function |
14 |                                     |
15 | PROPOSED REVISION TEXT:             |
16 | "The PMD receiver is not required to verify whether a compliant 50GBASE-  |
17 | SR, 100GBASE-SR2, or 200GBASE-SR4..." |
18 |                                     |
19 |                                     |
20 |                                     |
21 |                                     |
22 |                                     |
23 |                                     |
24 |                                     |
25 | RATIONALE FOR REVISION:              |
26 | There is a typo in 100GBASE-SR2, and the standard says "100GBSE-SR2". I   |
27 | discovered this during a review of 802.3cm-D2.0, which is modifying that  |
28 | sentence, and could fix the typo.    |
29 |                                     |
30 |                                     |
31 |                                     |
32 |                                     |
33 |                                     |
34 |                                     |
35 | IMPACT ON EXISTING NETWORKS:         |
36 | None.                                |
37 |                                     |
38 |                                     |
39 |                                     |
